## "MADE IN LOWELL"

## Local Concern Manufactures Talking Machine Needles

W. H. Bagshaw Co. Supplies Japan, South America and Mexico With Needles, Along With All Leading U. S. Concerns

"Made in Lowell." That is the slogan which the board of trade wants all manufacturers to adopt to boom this city. There are many things made here of which the people of Lowell generally have no knowledge. For instance, when you are listening to a phonograph grinding out grand opera, did it ever occur to you that the tiny needles without which the machine is worthless are for the most part made in Lowell?

There are only three concerns in the whole United States that manufacture talking machine needles and one of these is the W. H. Bagshaw company in Wilson street, established there in 1870 by the late W. H. Bagshaw and now conducted by his sons, Charles and Walter Bagshaw. While this factory does not manufacture talking machine needles exclusively, it forms an important part of the work done there and it was the first place in the United States to turn them out.

One will get an idea of the large amount of needles used by the record at the Bagshaw plant, which not long ago shipped away exactly 63,020,300 needles in 10 consecutive days.

Aside from a big business with all the leading talking machine companies in this country, the Bagshaw company supplies all the needles used in far away Japan, having a standing contract with the Japanese. They also supply Mexico and South America.

Although this time of year is between the seasons with the Bagshaw people, they report business unusually good.

## FRAMED PORTRAIT

## Of the Late Judge Locke Placed in Police Court

A handsome framed likeness of Hon. Joseph Locke, the first justice of the local police court, who served from 1833 to 1896 and died in 1893 at the age of 78 years, has been presented to the police court by Joseph Locke Foster, grandson of the deceased.

When court opened this morning the portrait was brought into the court room and suspended in front of Judge Hadley's desk and the judge spoke on the honor and integrity of the former justice. Judge Hadley said that he felt that he was one of the few living persons who remembered Justice Locke.

The following is the letter which accompanied the picture:

Boston, Mass., June 5, 1911.

Dear Sir:—Understanding you to be desirous of having a photograph of my grandfather, Joseph Locke, to hang in the court house, I have had one taken for that purpose and am forwarding it to you today by express. It gives me great pleasure to do this, as it is very gratifying to find after all these years that he is still remembered and honored among you, and I trust a suitable place will be found to hang it.

I thank you for expressing a desire to see me and I shall try to make it possible to call upon you at an early date.

Very respectfully,  
Joseph Locke Foster.  
To Judge Samuel P. Hadley,  
Lowell, Mass.

## INSPECTION TOUR

By Waterways Committee Today

The committee on waterways went out this afternoon with representatives of the Locks and Canals to inspect the different places to be protected in accordance with the action of the city council. Supt. Welch and Inspector McLean of the police department went along too. The proposition to protect the waterways in order to minimize the number of drowning accidents in the canals and rivers has been gone over very thoroughly and the committee wants to know what the Locks and Canals will do about it.

The committee having to do with bathhouses is also looking for an interview with the Locks and Canals for the purpose of having restrictions removed in order that a bathhouse may be located on the South common.

## LAWN PARTY

Tomorrow afternoon and evening, between the hours of 4 and 10 p. m., the ladies of the First Universalist church will conduct a lawn party at the residence of M. C. Pratt in Middlesex street, corner of Baldwin street. Features and novelties new to parties of this kind will be introduced and a good evening's entertainment is in store for all who attend.

Dancing on the green will be continued from late afternoon to the closing of the party. Refreshments will be served. Tickets are 25 cents. Children of the parish under 16 years will be admitted free.

## FOUR DEFENDANTS

## Charged With Padding Bills Against City of Lawrence

Patrick J. Lyons, Michael J. Flynn and Phillip Holland, of Lawrence and Fred L. Snow, of Westford Placed on Trial — Attorney for Holland Asked That Indictments be Quashed

SALEM, June 8.—The Lawrence graft cases came before the superior criminal court here today when four men were placed on trial for alleged conspiracy to defraud the city of Lawrence by means of padding bills. The defendants are Patrick J. Lyons, superintendent of streets; Michael Flynn, clerk in the street department, and Phillip Holland, a contractor, all of Lawrence, and Fred L. Snow of Westford, a paving block dealer. Judge Bell presided and a great array of counsel appeared.

As soon as court opened Attorney James H. Vahey of Watertown, of counsel for Holland, moved that the indictments be quashed on the ground that they did not state that the various counts covered the same alleged offense. The argument on this motion occupied the greater part of the forenoon.

## MAN WAS FINED \$20

## He Pleaded Guilty to Charge of Stealing a Bicycle

Lowell once more regains its title of "Spotless Town," for during the 30 hours which preceded 8:30 o'clock this morning there was not one arrest made. The members of the department were alert but the residents of the city and the floating population were not making any breach of peace and therefore it was not necessary to use the limousine.

This morning, however, three undesirable persons, who claimed Haverhill as their home were placed under arrest.

The case of Rhona Ellis charged with feloniously assaulting Helen Hartnett, the 14 year old girl from Haverhill who spent several months at the Butterfield house in Tyler street, was continued till June 24, at the request of Lawyer William H. Wilson.

James J. Sullivan, a young man, was charged with stealing a bicycle from Peter Christopoulos. He admitted his guilt and was found guilty by the court and a fine of \$20 was imposed.

## CHANCE FOR BOYS

Provided by the General Electric Co.

Arthur K. Whitcomb, superintendent of schools, has received a note and pamphlet from the apprentice department of the Lynn works of the General Electric company, telling of the advantages offered by this department to boys who are industrious, and it is to be understood that unless the boy has lots of grit and perseverance the row would probably be a little too hard for him to hoe. The boy must be not less than 15 years of age and must have a grammar school education or its equivalent. For the first half of the first year the boy is allowed 5 cents an hour, 10 cents an hour for the second half, 12 cents an hour for the whole of the second year, 14 cents an hour for the third and 16 cents for the fourth year. A full term of apprenticeship means a cash bonus of \$100.

## AN AMENDMENT

To the Traffic Ordinance Offered

Councilman John Jacob Rogers has suggested some changes in the new traffic ordinance as drawn and submitted by City Solicitor Duncan. The ordinance has not yet been beyond the clerk of committees and Mr. Rogers' suggestions may become part of the ordinance before it is submitted to the city council. The new ordinance reads that no vehicle is allowed to stand for more than five minutes in Merrimack square without an attendant. Merrimack square is defined as from the East Merrimack street bridge to Shattuck street, on Merrimack street, from Merrimack street on Central street, to Warren, and on Bridge street to French street. The amendment offered by Councilman Rogers is that no vehicle be allowed to stand for any length of time without an attendant, unless when loading or unloading.

## TOWNS DAMAGED

Volcano Calima Has Become Active

GUADALAJARA, Mexico, June 8.—The volcano Calima became active yesterday when the earthquakes were felt and today was emitting smoke and lava. The towns of Tonila and San Andres were badly damaged by the disturbances, portions of them being destroyed. A relief train has been sent to the scene from here.

## THOUSANDS HOMELESS

MEXICO CITY, June 8.—Despatches from Tuxtepec, a few miles east of the volcano Calima in the southern part of the state of Jalisco say that Tuxtepec suffered severely from yesterday's shocks. The number of victims is said to be large. A church and a number of houses were thrown down and other dwelling places rendered unsafe. Thousands of persons are homeless.

## YALE STUDENTS

Were Dismissed After Being Fined

NEW HAVEN, June 8.—Punishment in the form of fines imposed by city court on four students in the Sheffield school today for defacing private property was immediately followed by summary dismissal by Director Chittenden of the faculty of Yale.

The men, all freshmen, were each fined \$25 and costs on two charges, while Robert E. Pretat of Waterville, Conn., a junior, was fined \$15 and costs. All paid.

The students had painted obscene words on the sidewalk in front and on the house of Dr. Johns. The college bursar's office at Lamson hall was given a coat of paint also.

The students were dismissed because Dr. Johns had rated down a student through failure at examinations. It was shown that Pretat did no painting but was with the others. All promised to pay for damage done.

## LOWELL CONCERN

Gets Contract for State Highway Job

Another new Lowell concern—gets under way most auspiciously. M. J. Denault, for the past 15 years foreman for H. W. Tarbell & Co., recently started in business for himself as a builder of roads, etc., under the firm name of M. J. Denault & Co., with an office at 299 Chelmsford street. The Massachusetts state highway awarded him the contract to build a mile and a half of state highway at Bourne, Mass., in the Cape Cod district, his figures being \$5529.

## ASKS \$10,000

BECAUSE HE TOOK ANOTHER MAN'S NAME

BOSTON, June 8.—Edward Gerrish Gardner, minor son of Joseph A. and Emma B. Gardner of Somerville, has sued to recover \$10,000 from the estate of Edward Gerrish of Cambridge, who it is claimed, made a written promise to Gardner's parents to pay Gardner that amount if he should be named after Gerrish.

The case came before Judge Hitchcock yesterday in the superior court, and the plaintiff was allowed to amend his declaration to set forth the promise. The defendant, Arthur W. Denault of Newton, administrator of the estate.

Gerrish died in 1906, leaving an estate of \$100,000, of which \$45,000 was in public bequests.

## Case of Eugene A. Shea and His Bartender Tried in Police Court This Morning—Michael Miskell Fined \$100—Decision in Shea's Case Reserved

Eugene A. Shea, who conducts a liquor saloon at 599 Broadway, and his bartender, Michael Miskell, were arraigned before Judge Hadley in police court this morning on complaints charging them with the illegal sale of liquor. This case, although there were two complaints, was the first of the alleged violations of the Bar and Bottle bill. Mr. Shea was granted a first class license—that is to sell liquors to be drunk on the premises—about a month ago by the board of police, but according to the testimony offered and the finding of the court the law was violated inasmuch as Mr. Miskell sold one-half pint of whiskey to Charles A. Wallace, one of the members of the police department.

The case was an interesting one from many points of view. In the first place the witnesses for the government told their stories in a straightforward manner and several police officers were summoned to appear for the defense at the request of counsel for the defense. Supt. Redmond Welch of the police department produced sufficient evidence to convict one of the defendants and Lawyer Daniel J. Donahue who represented the defendants quoted the law at considerable length and made an able argument for his clients. Inasmuch as this was the first of the alleged violations of the Bar & Bottle bill the court reserved decision in the case of Mr. Shea until Saturday morning.

The first witness called by the government was Supt. Welch.

Vedrine Travelled 155 Miles an Hour

PARIS, June 8.—L'Auto estimates that Vedrine, the winner of the Paris-Madrid race, whose proper name is Jules Vedrine, attained the prodigious speed of 155 miles an hour on Tuesday, covering the 77 3/10 miles separating Dijon and Saint Laurent le Marais in 50 minutes.

The paper quotes the aviator as saying that he was pushed by a wind so violent that at times he flew with the tail of his air machine perpendicular. He also encountered wind pockets that caused his monoplane to make frightful drops, sometimes 900 feet in a few seconds. Vedrine suffered only through the strain on his eyes.

erment was Patrolman Charles A. Wallace, who testified that on the evening of Saturday, May 27th, he visited the place conducted by Mr. Shea in Broadway. Witness said: "Under instructions and accompanied by Inspector Frank Fox of the liquor squad I went to Mr. Shea's saloon in Broadway. It was between 9:20 and 9:30 o'clock and leaving Mr. Fox outside, entered the saloon. I ordered a glass of porter and then asked the man behind the bar, that man over there, pointing to Mr. Mitchell, for a half pint of whiskey. He said that it was against the law to sell it, but said if I would go to the rear of the place and into the toilet room that he would give it to me. I followed his instructions and waited to the rear of the place and entering the toilet room found that he was following me. He passed me a half pint of whiskey for which I gave him a quarter. He had the bottle in his hip pocket."

Cross-examined by Mr. Donahue, witness said that he did not see Mr. Shea on the premises. He admitted that he drank some of the porter which he had ordered, but that was the only place that he had tasted any intoxicating liquors during the course of his travels despite the fact that he had visited many on that night.

Lawyer Donahue in cross examining the witness asked him if he was not aware of the fact that it was a violation of rule 19 of the rules of the police department to drink while on duty and the witness admitted that he knew that, but nevertheless he admitted that he did taste the porter which he purchased. Relative to where the bottle handed to him by the bartender came from, Patrolman Wallace said he did not know.

Inspector Fox Called

Inspector Frank Fox of the liquor squad was the next witness and that he is an expert when it comes to testifying was plain. He stated that he was outside of the saloon in question and saw Patrolman Wallace enter the place. He searched Patrolman Wallace before the latter entered the place and swore that the man did not have any bottle on his person.

Continuing, Inspector Fox said: "I afterwards entered the place and walking to the end of the bar entered the toilet room and found a man with a half pint bottle in his pocket. I accused him of having purchased in that place, but he denied the allegation. I accused the bartender of selling the liquor to the man and he said he did not."

On cross examination Mr. Fox was asked: "Where were you located when Mr. Wallace entered the saloon?"

He answered: "I was directly in front of the window."

"Is your eyesight good?" asked Mr. Donahue.

"Yes, sir; just as good as it was in my youth."

"Do you wear glasses?"

"Yes, sir."

"What for, if your eyesight is good?"

The witness hesitated for a moment and gave a satisfactory answer.

"How old are you?" asked Lawyer Donahue.

"Between 21 and 30."

"Could you give it more exact?"

"No, sir."

Referring to the man whom the witness stated that he saw in the toilet room, Lawyer Donahue asked:

"Why didn't you ask that man his name?"

"I have just enough of experience to know that I would not get it," was the response made by Inspector Fox.

"From whom did you receive your instructions?"

"The superintendent of police."

"Which one of the commissioners asked you to go and get this man?" (Meaning Mr. Shea.)

"None."

"Why did you go there?"

"Supt. Welch sent me out and my instructions from him were to visit any or all saloons."

The government rested its case at this point.

Patrolman Called by Defense

Among the witnesses for the defense were three patrolmen who had been summoned by counsel for the defense.

Patrolman Stephen Castles was the first man called and during the course of his examination testified as to the length of his service in the police department and said he had served on the liquor squad. He said he passed Mr. Shea's place four times a day. He said he never saw any bottles passed over the bar or sold by the defendants or any other person in the saloon.

Patrolman Frank Marshall and John T. Whelan were sworn but testified as their testimony would be in part the same as that offered by Patrolman Castles they were not called upon to testify.

Mr. Shea Testifies

The next witness called to the stand was Eugene A. Shea, the proprietor of the premises and one of the defendants. He said he had been in the liquor business for seven years and as soon as he received his license instructed his clerks not to sell any bottled goods. He said that all the bottles, that is half pints and pints, that he had on the premises he ordered his men to empty and throw the bottles away, which he alleges they did. He said that he has not had a bottle on his premises since he received his license.

Mr. Shea said that he knew nothing about the sale and that the time his place was visited he was in the barber shop nearby.

In answer to a question put by Supt. Welch witness said that he did not know that his bartender (Mitchell) had a half dozen or more bottles of liquor on his person.

A man who gave the name of Burns and said that he had charge of the lunch counter at the place said that he had seen the employees dumping the liquor out of half-pint and pint bottles and throwing the empty bottles into a rubbish barrel.

John C. Kavanaugh, a bartender, testified that he had received his instructions relative to the sale of bottled goods from Mr. Shea and had refrained from selling any liquor. He said that in the first place there were no bottles on the premises that could be filled and sold.

Other Defendant Called

Michael Mitchell, a bartender for Mr. Shea and a co-defendant, said he had received instructions from Mr. Shea about selling any liquors to be carried from the premises and had carried out his orders. He denied that he sold a bottle of whiskey to Patrolman Wallace.

The testimony in the case was concluded at this point and Lawyer Donahue argued at considerable length, quoting various laws which he claimed

"I could, but I do not think it is necessary."

The question was again asked and witness did not answer, whereupon Lawyer Donahue appealed to the court and the court advised Inspector Fox to answer and the latter said: "I was born on Sept. 12, 1860."

"Didn't you know that lenge go that after a man becomes 15 years of age?" asked Mr. Donahue.

"I am not versed in optometry."

"What's that you said?"

"I am not an optician."

"You saw no sale made on the premises?"

"No, sir."

Referring to the man whom the witness stated that he saw in the toilet room, Lawyer Donahue asked:

"Why didn't you ask that man his name?"

"I have just enough of experience to know that I would not get it," was the response made by Inspector Fox.

He denied that he sold a bottle of whiskey to Patrolman Wallace.

The testimony in the case was concluded at this point and Lawyer Donahue argued at considerable length, quoting various laws which he claimed

had relation to the case in question. He informed the court that Mr. Shea was not on the premises at the time of the sale, that he had no knowledge of a sale and that if a sale was made it was made against Mr. Shea's orders.

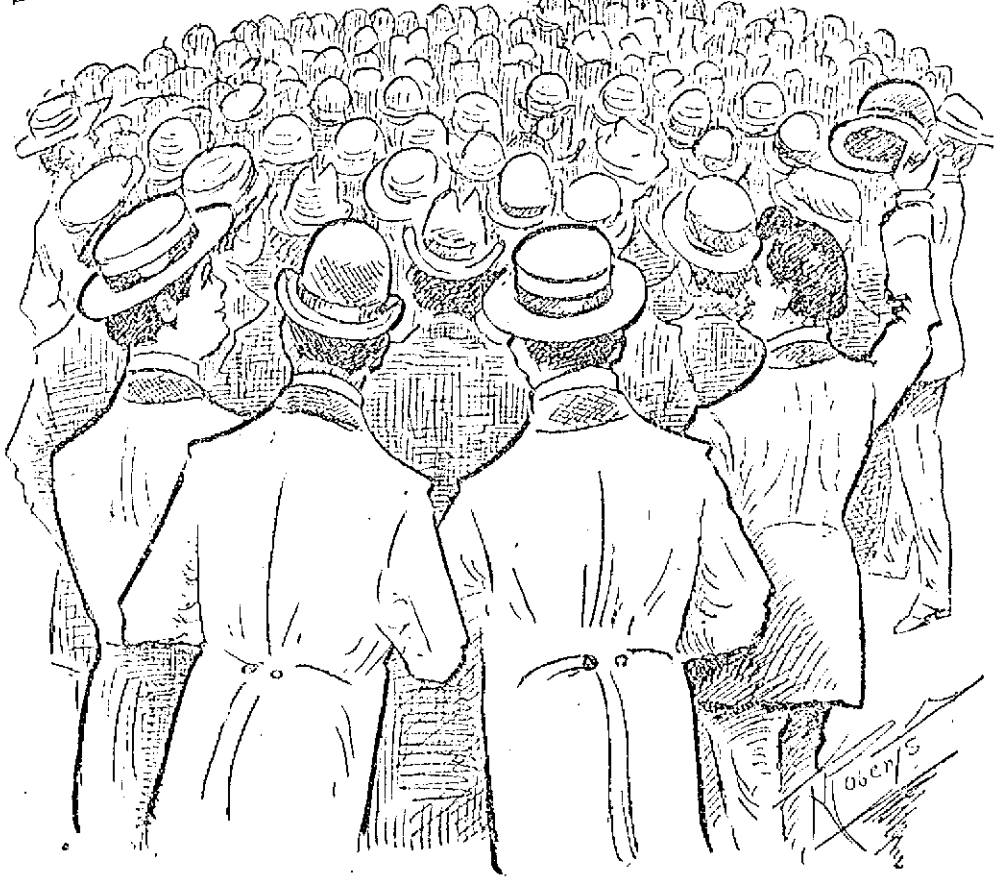

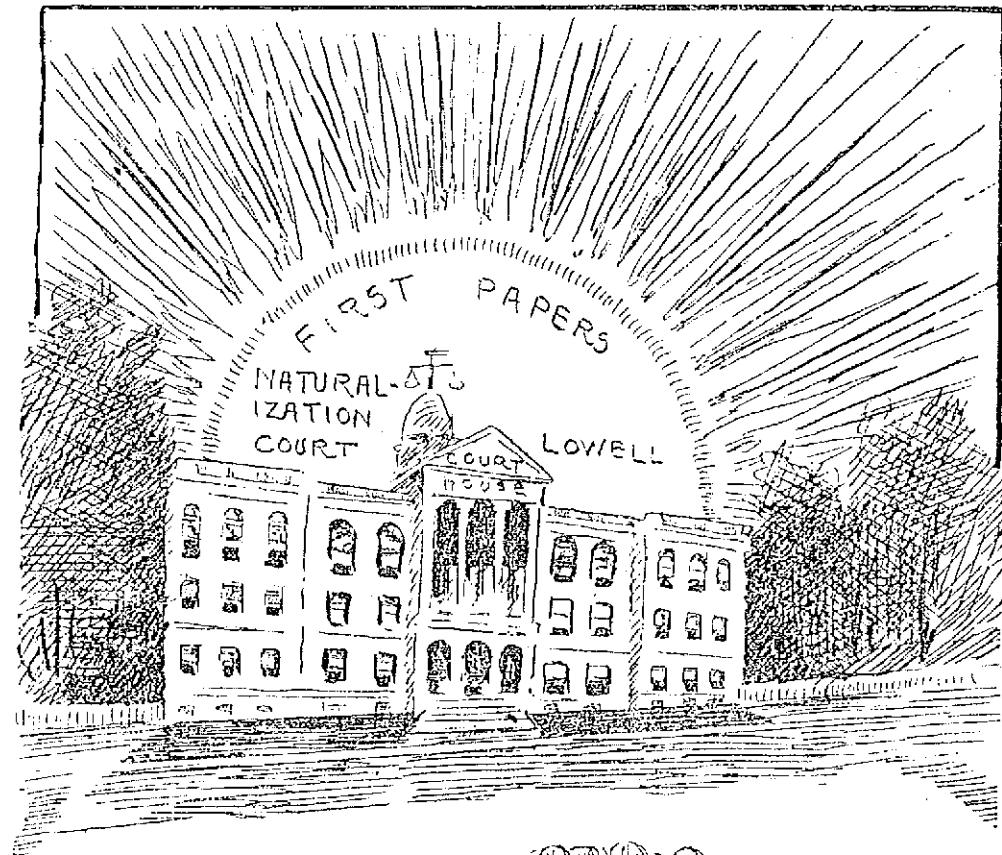

Supt. Redmond Welch, who was instrumental in the alleged seizure, offered a short argument in which he spoke of the provisions of the Bar and

Bottle bill, and described how holders of first class licenses were intruding on the rights of the holders of the fourth class licenses. He said that as the head of the police department he felt it his duty to see that the law was carried out and as a result he sent several officers out to ascertain if any of the dealers were violating the law. He did not specify any particular place

but gave them a chance to go wherever they wanted to.

One Defendant Fined

The court after considering the case found Mr. Mitchell guilty, and ordered him to pay a fine of \$100, but in the case of Mr. Shea, Judge Hadley reserved decision stating that he would make his finding Saturday morning.

## VIVANKA LECTURES

### Attended by Thousands of People, Says Witness In Bull Case

ALFRED, Me., June 8.—That Vivanka lectures in New York are attended by thousands of people, that there is a Vedanta society in New York and in all great cities, that Prof. H. C. Parker of Columbia university is a former president of the New York society, and that many prominent people belonged to the society or attended the lectures, was brought out by Charles K. Cobb, counsel for the estate of the late Mrs. Ole Bull, today, in the hearing on the contest against Mrs. Bull's will.

The testimony was given by Miss Shi Swannander, the New York school mistress, who was called to the stand for examination.

In referring to some of the prominent people who attended the lectures she named Walter C. Goodyear, a prominent New York manufacturer, Rev. H. B. Newton of St. George's church, New York, Prof. William Jackson, A. B. and Prof. A. W. Dow of Columbia university and the late Bishop Potter of New York. She did not know whether this Vedanta philosophy is taught at Harvard. The late Max Miller wrote a book on Vedanta philosophy and spoke of it very highly, she said.

Miss Swannander, who became a student of Vedanta philosophy in 1896 and attended her last lecture 10 years ago, was asked what the principle of it was. She said it was founded on the same principle as the Ten Commandments, but was broader and included love, animals and plants in the

scheme of things. Asked if there is any difference in belonging to the Vedanta philosophy and the Christian religion, she replied:

"Vedanta is broader; that is all. She thought it aided to understand and appreciate the Christian religion. Mrs. Bull, she said, had visions when awake, as well as when sleeping and they were of the living as well as of the dead. The visions were more frequent when she was not well. The fundamental idea of the Vedanta is to lead an upright life, visit the fatherless and motherless and to remain unsupplanted from the world."

"Yoga" is from the Sanscript word meaning "joining of a higher, and lower self in the worship of God."

#### Mr. Soden Favored Grandfather's Friends

BOSTON, June 8.—The will of Arthur J. C. Soden, who lived at 66 Beacon street, recognizes the fact that the money which he had made by his grandfather and for this reason he leaves it to the latter's descendants. "In making this will I have somewhat considered the needs of these named," he wrote. "As I inherited nothing from my father's estate I have not remembered the few distant relatives on his side. As I did not make my property myself, I have given most of it back to the descendants of Thomas Capen, my grandfather, who did make it. I direct that no person who shall contest this my will, shall receive anything under it."

He expresses a further desire that the apostles' creed be read at his funeral services in St. Paul's Episcopal church. The principal bequest, that of \$10,000, is left to the trustees of donations to

Protestant Episcopal church in Massachusetts to be spent for the relief of clergymen and their families, or of small parishes in need.

The widow of the Rev. Charles H. Soden, late of Wakefield, he desires to have preference in the benefits from this trust fund.

The public bequests in the will are as follows: One thousand each to domestic and foreign missionary societies of the Episcopal church in the United States for domestic work, Church Home for Orphans and Destitute Children, St. Luke's Home for Convalescents, the Episcopal Church Association of Boston, Industrial School for Crippled and Deformed Children, as a thankoffering for burial recovering from severe illness.

Mr. Soden leaves \$200 to the Maine Historical Society to erect a stone or bronze memorial in Nobleborough to his ancestor, Colonel Arthur Noble, for whom the town was named and who was killed at Minas in 1717.

Colonel Roosevelt at once replied that he should regard it as a not very pleasant thing if he were nominated and expected and demanded that every friend and supporter of his would do everything in his power to prevent any movement looking toward his, the colonel's nomination.

## Pardoned by Governor Foss After Serving 13 Years

BOSTON, June 8.—A remarkable standing behind his name in a statement obtained in Chicago from Arthur Hagan saved his "pal" John Chance, from serving out a sentence of life imprisonment for a murder for which both were indicted in 1898. After Gov. Foss and his council had read the statement and conferred privately yesterday afternoon, Chance was pardoned.

Hagan is now married and leading a law-abiding life in Chicago, according to Chief Inspector Dugan of the Boston police force. For years the man had written to Massachusetts governors. It is said, each time he declared the innocence of his "pal" Governor Foss pardoned Dugan on an investigation. The murder for which Chance was convicted was that of Charles L. Russell. Russell was

One Lone Run Won the Game

WORCESTER, June 8.—The home team defeated Lowell in a snappy game yesterday by a score of 1 to 0. Maybom pitched his first game for Lowell. Worcester scored its only run in the fourth inning with two out, Crum clearing the home plate after reaching first on a fast single and taking third on Maybom's wild high pitch, which gave Russell a base on balls, and a strike by Hagan to right. During the remainder of the game the local stick artists touched up Maybom freely but got nothing out of him. The score:

DIAMOND NOTES	
At Worcester today.	
Fred Reiger pitched a no-hit game against Lowell yesterday, but he gave nine runs on which Haverhill scored two runs.	
Lavigne caught a snappy game for Lowell yesterday.	
Here are a few from the Lynn item: With a circus in town, 350 fans went to the game between Lynn and Lowell at Ocean park, Monday afternoon. In the face of threatening weather and chilly atmosphere. They saw Hichor Harrington again hand something to the Spindle city boys, adding to his

fine record as a twister and putting Lynn up within 12 points of the Grays, who were tied with Worcester for first place before the game.

Harrington was certainly the ring master, and had Lowell's goat as he has had all the season. Had there been need of it he might have duplicated his stunt of that club on the afternoon of May 30. He made Lowell perform on a diamond shaped surface instead of a ring. Before his starting balloon talls Lowell played a remarkable circus clown performing in a Bugette game. They hit over or under the ball most of the time and only four times connected for hits. Had there been holes a foot wide in their bats they could hardly have done worse. He had their alley, just as Tyler of Lowell had Lynn all last season.

As catcher Huston said after the game the case of Harrington and Tyler is reversed, with Lynn having the big record of 10. Lowell could easily have been blanked. They got a cheap run in the first inning, without a single. When Wallace made that great run, making each which put Lowell on the blink when things looked rosy for many runs, Jack Huston said that Lefty had a horse in his pocket. After the game Jack went looking for it.

When McGovern pulled off his old time stunt of steering home and added Logan to get to third for a double, the fans roared for it. He made Lowell look like a fool instead of a leading man.

On Saturday, as on each preceding Saturday beginning with May 14, the Lowell team moved up into a tie for the lead in the New England league. On May 14, 21 and 28, Brockton led in the race, and on each of these days Lowell not only won, but Brockton lost to some other team. Saturday Lowell came into direct conflict with the league leader, Worcester, and again the former proved equal to the occasion, beating Brockton's boys and passing into a tie for top place.

Hi Labele yesterday displayed the slogan that they "don't come back." He turned to Brockton, even after his reception of Memorial day, but he didn't "come back" as an umpire. He was very and yesterday, but his mistakes were numerous, as they didn't cost anything for either side. In the ninth Brockton had three balls and two strikes, and swing was round for the third out and missed it, turning toward the bench when Labele shouted "take your base." Brockton went, of course.—Brockton Enterprise.

When Williams, the Indian outfielder with the Fall River club, left the grounds yesterday after the game and passed with the rest of the players to get up town to the hotel, a crowd of small boys followed him, giving violent if not realistic imitations of an Indian warwhoop. The attention from the kids didn't seem to bother Williams. A hit.—Brockton Enterprise.

AMATEUR BASEBALL

The members of the O. M. E. Cadet baseball team are requested to meet at the Immaculate Conception school hall Thursday evening at 7:30 o'clock and to bring the uniforms with them.

The Cadets will meet the South End Saturday on the South common in what is expected to be a fast game. This will be the second time this year that these two teams have met. The first time the Cadets by a rally in the last two innings defeated the South common boys 11 to 10.

In Aid of the Humane Society

A well attended and successful sale in aid of the Lowell Humane society was held in the carriage house of Mr. Jacob Rogers in Andover street, yesterday. It was the intention of the management to use the spacious grounds but owing to the heavy rains of yesterday and this morning the lawn was damp and it was deemed advisable to confine the affair to the carriage house. Despite this fact the attendance was so large that the people of this city appreciate the work which is being carried on by the organization.

Mrs. Frank E. Dunbar, who had general charge of the affair, worked hard in order to make it a success and undoubtedly tonight when the receipts of the different tables are counted up her hopes will be realized. The only disappointment that she felt was that the rain prevented the use of the grounds.

The feature of the affair was the fact that the public was cordially invited, no admission being charged, and this bright idea resulted in many people visiting the place and purchasing articles or enjoying a repast.

The carriage house was artistically decorated with American flags, hunting and grocery, and the Gorman orchestra, composed of ladies, gave a delightful concert program which was enjoyed by all present.

At different points of vantage about the spacious carriage house were sales tables, all of which were well patronized.

Mrs. Boyden Pillsbury had charge of the grand table, while Mrs. Joseph Smith had charge of the fancy table. The lemonade table, presided over by Mrs. George Leachy, attracted many people while the ice cream table in charge of Mrs. E. E. Sawyer was well patronized. The candy table with Mrs. M. R. Johnson at its head had a rushing business for the candy was of the choicest and there were many "sweet tooth" in attendance. Mrs. F. P. Marble had charge of the cake table and the cake like the candy was very palatable.

The success of the affair was due largely to the energetic efforts and zealous work of Mrs. Dunbar and she was ably assisted by the matrons of the different tables and the various persons who assisted on the tables.

The proceeds of the sale amounted to \$56.28, and the best of it all is that everything is profit, for through the kindness of Mr. John Jacob Rogers the carriage house was used and the different articles on the table were donated and everyone connected with the affair gave her services free.

The following is the list of committees:

TOMBSTONES DAMAGED

Several communications have been received at this office from Mr. W. E. Frye of Worcester, formerly of this city, to the effect that his tombstones in the Hildreth street cemetery have been defaced and mutilated.

The lot is opposite the Benjamin Butler monument and contains four stones. One of these stones, bearing the name of the writer's mother, is somewhat defaced, while off another a few pieces have been broken. Mr. Frye in company with his wife paid a visit to the lot some days ago and was astonished to see that such damage had been done to his property, and he expresses his hopes that the police will look into the matter and see that vagabonds are kept away entirely from the burial ground.

JUNE WEDDINGS

Four at St. Peter's Rectory Yesterday

Among the very pretty June weddings solemnized in this city yesterday, was that of Thomas Gallagher, ex-president of the Mathew Temperance Institute, formerly a well known resident of this city, but now occupying a very important position as foreman in one of the large machine shops of Providence, who was united in the holy bonds of matrimony to Miss Helen McCarter, at 2 o'clock this afternoon in the rectory of St. Peter's parish by the Rev. W. George Mullin. The best man was John J. Gallagher, brother of the groom, and the bridesmaid was Adeline McCarter, a sister of the bride. After the marriage ceremony the party proceeded to the home of the bride at the corner of Westford and Lane streets, where a wedding dinner was served.

Soiled Clothing Is Cleaned Best With Carbonol.

CARBONOL is a powerful disinfectant and a few teaspoonfuls of it in the tub will help greatly in the cleaning. It will kill all germs; remove stains and make the work easier.

That, however, is only one use of Carbonol. Carbonol has many other uses. It is more necessary to the housekeeper than soap. It will do all the work that soap can do and a great deal more, because it has the power to kill germs and dissolve grease.

It should be used in general house-cleaning. A dash of it in the water that you use in scrubbing floors and washing down woodwork will make every drop of water an effective disinfectant.

It will keep the waste pipes clear of grease. It will suppress odors in garbage and keep away the flies; it will clean the garbage can after it has been emptied; it will remove stains on woodwork or cloth; brighten dingy rugs.

In case of contagious diseases Carbonol should be used constantly and frequently to wash sickroom utensils and all bed linen and clothing of the patient.

The uses of this powerful product are simply endless.

We will send a free sample to experiment with and a booklet of directions for its use.

## SNAPPY BOXING

Expected at L. A. A. This Evening

The Lowell Social and Athletic club has provided one of the best bills yet offered for its meeting this evening in Mathew hall when the principal bout will be one of 12 rounds between John Gallant of Chelsea and Young Miller of Pawtucket. Gallant is well and favorably known to the members of the club as a fast and clean boxer. He understands how to use both hands effectively and may always be depended upon to put up an interesting bout. Young Miller is a husky proposition possessed of both steam and cleverness. The pair have never met before but Miller has met and defeated many good men and will make a good opponent for the sturdy little Bostoner. Two bang-up preliminaries are on the card and no member should miss this entertainment. Non-members of the club may as well keep away as they will not be admitted. Only those holding membership cards and in good standing will be admitted.

A TIN SHOWER

Last evening at Miss Susie Pyne's home 84 Central street, a tin shower was given Miss Margaret T. Doyle. The party broke up at a late hour, the entire company singing "If I Had a Thousand Lives to Live, I Would Live Them All for You." Miss Margaret Box was the accompanist. The Misses Elizabeth and Susie Pyne and Mary McCusker.

He was convicted of giving a worthless check for \$552.51 to George Hotchkiss & Co., commission merchants, for beef ordered from them.

Commissioner Crosey then dismissed him. Commissioner Waldo said at the hearing that as McGrath had been acquitted in court he did not think he should be punished further.

Lieut. Lake was dismissed by Crosey for being found asleep in the Harbor A station house and for making entries in the blotter ahead of time. Commissioner Waldo said Lake had a good record and let him off with a reprimand.

### MANY MEETINGS

#### UNDER AUSPICES OF THE CHARITY CONFERENCE

BOSTON, June 8.—An extensive and varied program was carried out by the National Conference of Charities and Corrections during the morning hours today. Following the general session in Ford hall, which was taken up with the reports of corresponding secretaries of the states and territories represented, a wide range of subjects dealing with charity and corrections was discussed in the public halls around Beacon hill.

Adequate relief for families and neighborhoods, the care of destitute and neglected children, housing, heat and recreation, drunkenness and mental defects of law-breakers, offered opportunity for the visiting delegates to get in touch with the most advanced theories of social work in their chosen field.

At the Twentieth Century club Dr. Harlow Brooks and Dr. T. E. Williams of New York discussed the subject of drunkenness in regard to the effect of alcohol on the organs and functions of the body.

Miss Jane Adams of Chicago and Joseph Lee considered the problems of housing, heat and recreation in Ford hall, and delegates interested in the mental defects of delinquents listened to addresses by Dr. William Healy of Chicago, Dr. Schlapp of New York, Prof. Maurice Mermelée of the university of Missouri and many other noted experts in psychology.

Other speakers at the morning session meetings were: Frederick Amy of Buffalo, who considered families and neighborhoods and Dr. J. R. Brackett of Boston.

### LOST MEMORY

Recovered by Man After Three Days

LYNN, June 8.—After suffering from a lapse of memory for more than three days, Abe Fegelman, a young man, living at 31 Grove street, Boston, became repossessed of his lost faculty in the Lynn hospital Tuesday and revealed his identity to the doctors.

His was one of the strangest cases in the history of the hospital, and the ailment from which he was suffering, which caused temporary loss of his memory, baffled diagnosis. The hospital doctors admit that they are at a loss to account for his strange condition, but yesterday, when the young man was permitted to leave the hospital, he was apparently in perfect health.

Late last Saturday night, Fegelman was found by Patrolman Litch wandering aimlessly about in Houghton square. He told the officer that he did not know his name. Not knowing what ailed the stranger, Patrolman Litch sent him to the Sutton street station.

Sunday morning he was sent to the hospital and he remained there until Tuesday forenoon, when he suddenly regained his memory and asked where he was. He told the doctors all about himself and added that he remembered nothing about his actions since he left the home of A. Platanay at 31 Grove street, Boston, Saturday.

He could not tell how he happened to come to Lynn, and he expressed some surprise when he was told that he was in a hospital in this city.

## TWO EARTHQUAKES

In Different Parts of the World Are Reported

SAN JOSE, Cal., June 8.—Two of the southernmost part of the Alentejo earthquakes in widely different parts of the world were reported at Santa Clara college yesterday, according to the statement of Father Richard A. microscopical examination revealed a compound fracture. Nearly all of the interwoven, both large and small, were broken, indicating that when a big shock was occurring in one place there was a smaller one in another.

ments at Santa Clara college yesterday recorded two earthquakes of which the Mexican city tremor was the lesser in intensity. Professor Woodworth explained that it is quite common for one earthquake to cause a seismic disturbance in some part of the world far distant from the point of origin of the first disturbance, and as an illustration, he cited the case of the earthquake which caused great damage at Valparaiso, Chile, a few years ago, coincident with the Valparaiso disturbance was a heavy shock in the Alentejo islands.

NO RECORD AT HARVARD  
CAMBRIDGE, June 8.—No record of the severe earthquake noted by the seismograph at the Potsdam observatory and believed to be in the neighborhood of the Cuspian sea was made by the seismograph at Harvard university, Prof. J. B. Woodworth, Harvard authority on earthquakes, was interviewed in the report received today from San Jose, Cal., saying that the instru-

ment at Santa Clara college yesterday recorded two earthquakes of which the Mexican city tremor was the lesser in intensity. # HIDDEN GOLD

## Found by Treasure Seekers Off Honduran Coast

SAN DIEGO, Cal., June 8.—A message received here from a party of treasure seekers aboard the steamer Eureka says their expedition to recover an immense cache of gold hidden by the crew of a Chilean cruiser off the Honduran coast many years ago has been successful. The treasure has been variously estimated at from \$15,000 to \$50,000, according to reports circulated here. The steamer is now headed for this port.

The Eureka is in command of Capt. Burling and was taken on a 30 day charter by a party of San Francisco people about two weeks ago.

The expedition is said to have been financed by Henry Kreling, a well known citizen of San Francisco.

The map, showing the location of the buried treasure, is said to have been in the possession of a former resident of Honduras who succeeded in interesting Kreling in his story of the buried gold. The result was the chartering of the Eureka.

The fact that most of the South American republics will not allow the exportation of gold made it necessary to guard the place of the expedition. The message received from Salina Cruz yesterday read:

"Expedition a success in every way. Reached San Diego for oil next week."

### Pimples, Skin Blotches

Disappear Over Night in Many Instances When This Simple, Old-Fashioned Home Remedy Is Used

My complexion is naturally bad. I neglect it. I soon find my pimples and blackheads breaking out. I use slightly red skin blotches appearing in conspicuous places. I know of nothing more humiliating and often I used to hate to leave home or appear in public places because of my horrid skin. A friend of mine who has one of the best, clearest and most beautiful complexions I ever saw, visited me one day and in despair I asked her how she did it. She said: "It's no secret at all and you or any woman can do it just as well as I. I use no rouge, no cosmetic of any kind, but each night before retiring I bathe my face with a simple lotion that I prepare myself at home. I mix 2 ozs. of Flowers of Oxidant with 3 ozs. Rosa Water and I dilute this mixture of Benzoin. Any druggist will keep these ingredients or get them from the wholesaler."

I followed my friend's advice, and the results have been simply wonderful. My skin is smooth, clear and velvety always and the treatment takes me less than five minutes each night and costs next to nothing. I simply moisten a cloth with the lotion and apply it gently all over my face and neck, and in the morning I wash it off. I find this lotion delightful for softening and smoothing my hands, face or lips if roughened or chapped from exposure to wind and weather. My husband uses it after shaving and says it's fine, stopping instantly all soreness and irritation.

I think a great many readers will be glad to hear of this recipe and hope you will publish it. I get all the ingredients here in Lowell from the Ricker-Jaynes Drug Store, but I guess almost any druggist will have them.

## NEGRESS BLAMED FRUIT GROWERS MISS JULIA WALL

Is Accused of \$50,000 Robberies

NEW YORK, June 8.—The police assert that as many as 40 apartments and houses on the fashionable upper West Side have been robbed of \$50,000 worth of the clothes during the last few months and that Annie Carter, a young negress, who was arrested last night while pawning a sashpin coat, may be confronted by all the complainants when she is given a hearing.

Detectives investigating found to their surprise that in almost every case the thief had seemingly avoided stealing jewelry which might easily have been taken. In one case \$17,000 worth of jewelry lying on the dresser in a room where jewels had been stolen were left untouched.

## BADLY BEATEN

Holyoke Striker Victim of Assault

HOLYOKE, June 8.—Joseph Sutton, aged 38, one of the carpenters now out on a strike, staggered into his home at 115 Federal street half unconscious from a terrible beating administered by some one as yet unknown.

He had a compound fracture of the jaw, a broken leg, a long gash on the head that took six stitches to close, and six teeth were broken. The condition of his jaw prevented Sutton from giving any clear account of how it happened. He attended a meeting of strikers last evening and at 11:30 was in the hall with 20 or 30 others.

He was next seen at his home by his wife. It is believed that he wandered around dazed after the assault and that he was assisted home by the crew of some late trolley car. An investigation started by the police has so far failed to establish a clue to his assailants.

## AN OPIUM RAID

NEW YORK, June 8.—In seizing more than \$100,000 worth of contraband opium yesterday, three custom inspectors and three detectives battled with 11 members of the Chinese crew of the steamer Rosette at a Brooklyn wharf and finally arrested three Orientals.

On secret information the customs men searched the Rosette, which was getting ready to sail yesterday on its regular trip to Shanghai, and found 10 cans of opium hidden in the banks of members of the crew. The captain refused to tell what Chinamen occupied those bunks and when the officers started to take the drug the 11 members of the crew objected.

The customs men were driven to the main deck and from there to the deck by the Chinamen, who were armed with long knives.

Will Demand \$100,000 From Mexico

LOS ANGELES, Cal., June 8.—A. E. Coons, agent for a fruit express, was notified yesterday that American growers of fruits and vegetables in Mexico would ask the state department at Washington to file a demand for \$100,000 damages from the Mexican government.

The growers assert that the wrecking of the railroad bridges by the insurgents has caused the loss of cantaloupe and tomato crops in two states of Mexico.

## LOSS IS \$15,000

Factory Was Burned at Brunswick, Me.

BUNSWICK, Me., June 8.—The two-story factory of the Brunswick lawn sewing factory was destroyed by fire last night. The blaze was discovered at 10:30 by Carroll York in the shaving tower, which is about 25 feet from the main building and alarm was given from box 81, but when the firemen arrived the flames had spread to the factory, which was burned to the ground.

The fire was one of the hardest the firemen have battled in years and so great was the heat that the men were scorched and at times driven back so that they were unable to use the hose effectively.

The Western Union and Maine Central telegraph lines were crippled by the fire, which burned some of the poles, and the local house of the Maine Central railroad caught, but the blaze was extinguished before it made any progress. Sparks were carried into

the woods adjoining the railroad tracks, but a force of firemen put out the fire. The pullman trains on the Maine Central were delayed a short time by the fire.

The company employed from 12 to 25 hands and as the spring rush was on a large amount of finished stock in order was in the factory. The loss was about \$15,000 with insurance of \$7000. Samuel Knight of Brunswick is president, and Archie C. Hopkins of Belfast, vice president, and Walter C. Hatch of Brunswick secretary-treasurer.

## Fraudulent Hair Remedies

In the *Cosmopolitan Magazine* for February, 1909, there is a long article on the Hair and Scalp by Woods Hutchinson, M.D., a writer of wide renown, and in it he says:

"The strongest and most powerful curative element of scalp tonics and hair restorers is their smell, and the next powerful is their color."

"Most of them are frauds, pure and simple, and produce no effect whatever except upon the imagination and the nostrils of the users."

"The most common constituent of them all is alcohol, and the next common probably ammonia or some aromatic oil or extract which has the double advantage of a powerful odor and of producing a mild sense of warmth and local irritation."

"All of this class are mild irritants to the skin and produce a light temporary reddening by an increase in the amount of blood circulating through the scalp; but this has about as much effect on the hair-bulbs as the beams of the harvest moon have upon growing cabbages."

The only sure way to benefit the hair and scalp is to keep them clean and free from dust and disease germs.

For this purpose Birt's Head Wash, the new scientific shampoo, is most highly recommended, because it is made of Refined Creamy Soap, White of Eggs, Cochin Cocoon Oil, Glycerin and Salicylic Acid. Any doctor will tell you there are no better things known than these for cleaning the hair and scalp. In hygienic tubes, 25c.

## Annual Exercises and Prize Drill at Mitchell School

The annual prize drill and graduating exercises of the Mitchell Military school in Billerica attracted many people to the place yesterday. In the morning there were a prize drill and field events, after which lunch was served, and in the afternoon exercises were held in the gymnasium and later the closing exercises were held in the school hall.

There was a large attendance, but owing to the inclement weather it was not so great as in other years, but when the dark clouds moved away and the rain stopped the sun came out and the afternoon proved to be ideal.

The prizes for the field events are

### FOUR INJURED

Electric Cars Met on Curve

PORTLAND, Me., June 8.—Four persons were injured in a collision between two electric cars on the Gorham and South Windham division of the Portland railway last night.

The injured are:

J. P. MacPherson of Portland, leg hurt.

Frank Depamore of Portland, wrist cut.

Mrs. Fred Bodge of South Windham, shoulder wrenched.

Mrs. Feeney of Gorham, leg sprained.

MacPherson suffered the most serious injury and was at once brought to this city. The other victims were taken to nearby houses and physicians called.

The cars met on a curve at what is known as the canal turnout, and as the rails were slippery, the instant application of the brakes did no good, except to lessen somewhat the force of the collision.

Both cars were crowded with passengers, and it was reported last night that many other people suffered minor injuries. The cause of the accident is to be investigated.

### HAMILTON MILL

Out of Town Builder Gets Contract

The Hamilton Mfg. Co. yesterday awarded the contract for its new mill to J. J. Prindiville, of South Framingham.

The building will be of brick, 265 feet long by 135 feet wide, four stories high. It will be built along the bank of the canal within the Hamilton yard, and will replace two old mill buildings. Later on, an addition may be built, making the building, with the extension, 500 feet in length, and the largest mill building in the city. Construction will be started at once.

Local contractors are much disappointed because the job goes out of town and some of them claim that the

AND IT WAS ALMOST MIRACULOUS THAT EVERYONE OF THE TWO HUNDRED PASSENGERS WERE NOT CRUSHED TO DEATH

When you read such startling headlines in the daily papers, did you ever stop to think how many lives are being crushed out daily by stones in the hands of hundreds of human beings, because no remedy was ever known to medical science that would remove them until Bloodine was discovered; and since Bloodine has been found to be a specific for this terrible affliction, it has had the most phenomenal sale throughout the East and West of any remedy ever known? Thousands of bottles have been sold in a single day in many of the large cities.

If you are suffering with stone in the bladder, aching pains, over hips, backache, sediment or deposit in urine, irritation of the bladder, pain in urinating, rheumatism, uric acid in the blood, sudden stoppage of the urine, highly colored or milky white urine, pain, blood or mucus in urine, retention of urine, stinging after urinating, thick or sluggish urine, cystitis, inflammation of bladder, catarrh of bladder, or bowels, puffiness under eyes, voracious appetite, thirst, gall stones, gravel, pain in urethra, swollen ankles, dimmed vision, specks before the eyes, scanty urine, frequent calls, mouth dry, biliousness, dribbling, humors, weakness, loss of flesh, irregular heart action, ulceration of the bladder, skin pale, waxy and dry; bad odor of perspiration, don't delay, but send to your druggist and get a bottle of Bloodine at once; if he does not keep Bloodine, you can secure a six weeks' treatment, six bottles, for \$2.50, or single bottles, 50c, trial bottle and booklet free from The Bloodine Laboratories, Boston, Mass.

cotton mills do not care to give work to local contractors. This cannot be said of the Massachusetts mills, for all their work for the past year, with the exception of the storehouse, has been done by Lowell men.

### MATRIMONIAL

Mr. Frank Bowen superintendent of the Appleton Company, and Miss Mary Ellen French were united in marriage last night, the ceremony being performed at 6 o'clock at the home of the bride's brother, Mr. Albert French, 213 Parkview avenue, by the Rev. S. W. Cummings, pastor of the First Baptist church, who used the double ring service. The wedding took place in the music room, which was profusely decorated with mountain laurel, the bride party standing under an arch and bell made entirely of laurel. Mr. French, the bride's brother, played the wedding march, and Mr. John W. Stevens played during the reception that followed.

The bride was attended by her sister, Mrs. Albert J. Trull of North Tewksbury, as matron of honor, and by four flower girls and ribbon bearers. Miss Donna Bowen, a granddaughter of the bridegroom, Miss Alice Guillard, Miss Eva M. and Mildred E. French. The bridegroom was unattended. The following men were ushers:

Mr. Irving F. French of Tewksbury; Mr. Herbert L. French of Boston; Mr. Clarence A. Bowen of Lowell, and Mr. Herbert B. Bennett of Norwich, Conn.

The bride's gown was of white crepe de chine, over a sole de chine, trimmed with embroidery and real lace, and her tulle veil, in coronation style, was caught with lilies of the valley, the same flowers composing the shower bouquet that she carried. The matron of honor wore white messaline and carried pink roses, and the flower girls and ribbon bearers were in pink and white, carrying pink and sweet peas.

A novel and original idea in the decorations, were the initials "B" and "F" illuminated, among the masses of laurel forming the background of the arch, during the ceremony. As soon as the clergyman spoke the words that made the contracting parties man and wife, these initials disappeared, and in their place appeared another and larger illuminated initial "B".

At the reception following the ceremony, Mr. and Mrs. Albert F. French and Mr. and Mrs. Albert J. Trull were in line with the bride and bridegroom. Mrs. French wore a gown of white marquisette, with coral silk trimmings. About 200 guests were present.

After September 1, Mr. and Mrs. Bowen will be at home to their friends at 43 Gates street.

### FARNHAM—WRIGLEY

The marriage of Mr. Earl F. Farnham, a well known employee of the Tremont & Suffolk office, and Miss Emily E. Wrigley was solemnized last evening at the home of the bridegroom, 23 South Walker street. The ceremony was attended by many friends of the couple.

The wedding music was played by Miss Marjorie Wrigley, a sister of the bride. A large arbor of mountain laurel was erected in the parlor and beneath this the wedding party stood as the double ring service was performed by Rev. George P. Keenight, pastor of the First Trinitarian church, assisted by Rev. Sarah A. Dixon, pastor of the Tewksbury Centre Congregational church. The bride was prettily dressed in a hand embroidered, silk batiste dress over white satin, and wore a veil, and carried bride's roses. The matron of honor, Mrs. Rosind Cashin, wore white tulle over pink silk and carried pink roses. The best man was Mr. Albert Ludwig.

After the ceremony a reception was held at the home of the bridegroom, Mr. and Mrs. Farnham, where many presents. They left for a honeymoon trip during the evening. They will make their home at 23 South Walker street.

### FOOTE—LYDEN

Mr. John E. Foote of Melrose and Miss Lydia Lyden of Wakefield, were married Tuesday evening, the ceremony being performed at the home of the bridegroom's parents, Mr. and Mrs. G. W. Foote, 6 Frye street, by Rev. J. Clement Wilson of the Chelmsford Street Baptist church. The bride wore white satin, covered with white silk lace and carried bride's roses. The matron of honor, Mrs. Dianthe Foote, carried pink carnations and the best man was Mr. Albert A. Austin. Mr. and Mrs. Foote leave Saturday for Portland, Me., and after June 15, they will make their home in Melrose.

**TURNER—ARMISTEAD**

A pretty wedding was celebrated last night at the home of Mr. and Mrs. A. N. Armistead, 223 Varnum avenue, when their daughter, Laura, was united in marriage to Mr. Arthur Turner, son of Mr. and Mrs. Clarkson Turner of this city. The officiating clergyman was Rev. Frank C. Alger. The bride was gown in cream lace over white silk and carried white roses. The matron of honor, Miss Etta A. Russell, wore white messaline, carrying pink roses. The best man was Mr. Russell R. Armistead, a brother of the bride, and the ushers were Messrs. Arthur Armistead, Lorenzo A. Ayer and Howard Nuttall. The wedding music was played by Mrs. A. N. On Your Vacation

Whether you are off for the mountains, the woods or the sea, there is one thing you will be thankful to have time and again if you put it in your outfit. This is a bottle of Tolleline. It is a sunburn, insect bites, poison, cuts, burns, swollen or chafed feet, or in fact any of the ills the skin is subject to. Tolleline is almost miraculous in its effect. It has been described as a "perfect healer" and its four cent use in thousands of families throughout New England for the last 20 years is a testimony to its remarkable efficacy. Tolleline may be purchased at practically any druggist's and may be used internally or externally with perfect safety as it contains absolutely no drugs or harmful ingredients of any description.

E. Alfred Hudson, brother of the bride. The bride was attired in white tulle over batiste, and carried white carnations. The bridegroom wore blue silk and carried pink carnations.

The gift to the bridegroom was a gold bracelet, and in the best man a gold watch. The reception was held at the home of the bride's grandmother, Mrs. E. T. ## W. E. D. Stokes, New York Hotel Man, Seriously Injured

### Lillian Graham Admits That She Did the Shooting—She Says She Fired in Self Defence—Wounded Man Says That Women Demanded \$25,000 and Wanted Him to Sign a Statement

NEW YORK, June 8.—William E. D. Stokes, owner of the Hotel Ansonia, is in the Roosevelt hospital with two bullet wounds in his right thigh and one just above the left ankle.

Lillian Graham, 22 years old, an actress, and Ethel Conrad, 18 years old, an illustrator and singer, are prisoners in the West 53rd street police station, charged with having shot him in their apartment at the Varuna, 225 West 18th street, at 5.30 o'clock yesterday afternoon.

Mr. Stokes had received a telephone message at the Ansonia at 5 o'clock asking him to visit the young women's apartment to talk with them regarding some letters in their possession.

He went at once and met the women in the parlor of a three-room suite which they have occupied for a fortnight.

Stokes Thrice Wounded

As to what happened immediately thereafter, Mr. Stokes has given one version to the police, while the girls have made statements which differ essentially.

Other occupants of the house, however, heard sounds of a quarrel soon after Mr. Stokes' arrival. These sounds were followed by five revolver shots, the sound of Mr. Stokes making his way to the hall and the screams of the young women that he was trying to shoot them.

In an adjoining apartment, occupied by Patrick Casey, the manager of a vaudeville booking agency, three Japanese, Rol Moto, Yoshi Munai, and George Johnson, were preparing a dinner, to which Mr. Casey had invited a company of friends.

At the reports of the revolver the Japanese ran into the hallway and found Mr. Stokes sitting on the top step of the stairs leading to the third floor, holding a revolver in his right hand. The screaming girls were standing with blanched faces at the door of their apartment.

Two Women Arrested

John Bloom, superintendent of the Varuna, heard the shots from the 16th

floor and had reached the fourth before the Japanese had gathered their wits enough to do anything for the wounded millionaire.

Bloom picked him up in his arms, carried him to the first floor and there placed him in an automobile, in which he was taken to the Ansonia, several blocks away.

At the Ansonia a number of physicians were summoned and before Mr. Stokes had been taken from the car his removal to Roosevelt hospital was ordered. In the meantime a clerk in the office of Wood & Co., real estate agents, on the ground floor of the Varuna, had sent an alarm to police headquarters. Policeman Tully of the West 53rd street station, who was passing along Broadway with an automobile load of children who had been attending the orphans' day celebration at Coney Island, was notified of the shooting and arrested Miss Graham and Miss Conrad in their apartments, taking the three Japanese into custody at the same time as witnesses.

Claim Self-Defence

The girls, when arraigned before Lieutenant Hayes at the station house, were charged with felonious assault. Miss Graham had \$24 in her possession, while her companion had \$17. The latter refused at first to give her name, but later said she was Ethel Conrad.

The first statement from any principal in the shooting was given by Miss Graham to a reporter. She declined to go into personal details, either about herself or about Miss Conrad. As to the shooting itself, however, she said:

"We were aroused when Mr. Stokes came to the house because we live alone and we have to have revolvers to insure ourselves protection. He came to the house to get some letters I had. I refused to give them to him when he demanded them and he grasped me by the throat."

Miss Graham Admitted Shooting

"I was in danger of violence at his hands and I picked up my pistol from the mantel and shot at him as he came at me again. I don't know how often

## Read What This Girl Says:

Appleton, Wis.—"I take pleasure in writing you an account of my sickness. I told a friend of mine how I felt and she said I had female trouble and advised me to use Lydia E. Pinkham's Vegetable Compound, as she had taken it herself for the same trouble with wonderful results. I had been sick for two years and overworked myself, and had such bad feelings every month that I could hardly walk for pain. I was very nervous and easily tired out and could not sleep nights. I had dizzy spells, and pimples came on my face. But I have taken your Vegetable Compound and I am entirely cured. I think it is the best medicine in existence."—Miss Cecilia M. Bauer, 1101 Lawrence St., Appleton, Wis.

THIS GIRL SAYS IT IS WOMAN'S BEST FRIEND:

Chicago, Ill.—"Your Compound cured all my troubles and I am feeling strong and happy and able to work now. Wherever I go I shall praise Lydia E. Pinkham's Vegetable Compound, as I think it is woman's best friend. I have told all my friends the good it has done me."—Miss Maggie Isbener, 2418 So. Whipple Street, Chicago, Illinois.

Lorimer, Iowa.—"I had a heavy cold in the spring and got all run down and was irregular. I had no strength and had bearing down pains in my sides and back, and was very nervous and excitable. I took Lydia E. Pinkham's Vegetable Compound, and I am all right again, and stronger than before."—Miss I. E. Williams, Lorimer, Iowa.

Is it not reasonable to suppose that a medicine that did so much for these girls will benefit any other girl who is suffering with the same troubles?

Does it not seem the only sensible thing to give such a medicine at least a trial? You may be sure that it can do you no harm, and there is lots of proof that it will do you much good.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

The testimonials which are constantly being published in the Pinkham advertisements are guaranteed to be absolutely genuine, honest, and given without reward in any way whatever.

## ONLY A FISH

But It Caused Excitement in Gorham St.

Harry Gonzales, the Gorham street fisherman after waiting patiently for several weeks, has at last slipped one over on his hated fishing rival, Joe Flynn.

Some weeks ago Joe took a trip to New Hampshire and returned with the first collection of lake trout seen in Gorham street for a long time. He exhibited them in the window of Young Joe's store and invited the public to walk on the right hand side of Gorham street. If they wanted to see some real fish, Harry Gonzales' store is located on the left side, going up, and he considered Joe's remark as a personal reference to him inasmuch as whenever he gets a good catch he also exhibits them in his window. "I'll get him yet," vowed Harry, as he watched the hundreds stop at Flynn's window

and pass words of congratulation to both the Joes, young and old.

Harry hid his time. He fished in several ponds but never succeeded in getting anything that would rob Joe of his laurels until yesterday, and now everybody is walking along the left side of Gorham street, going up, and it has suddenly grown from the 50 cents side to the dollar side.

Joe Flynn came down to Young Joe's store yesterday morning in his auto, thoroughly at peace with himself and the world, remarking that it was a good day for horn-pont. By chance he glanced across the street and there to his great surprise he saw Owen Donohue, Mike Markham, Charlie Marren, McConville, the barber, Henry Quirk, Tommie McDermott, Jerry McGlinchey, Martin Colman, Tom McNiff of the Nor' East club, Phil Ginty, the waiter, Connelly and Bill Hazard, the light and dark lads, Martin Crystal, the cobbler, Serp, Shen, Mike Donlin, Bill Tyrrell, Dan Lane and Dan Coger, the cops, and a whole bunch of prominent Gorham street citizens congregated about and peering into the window of Harry Gonzales' in open-mouthed wonder and excitement.

"Hi, Harry!" exclaimed Joe. "I suppose Harry Young has sent him in a few perch from Flushing pond and he's four-flushing with them."

Just then John Saunders, the grocer, beat it across the street in great haste and soon was mixed up with the crowd. "Be jerry," remarked Joe alighting from his auto, "if that guy is going to get in the game so is the firm of Flynn and forthwith Joe crossed the street. Being on the outskirts of the crowd he couldn't see very well and he asked:

"What's the excitement?"

"It looks like Joe Flynn," said one of the bunch who had not observed Joe's arrival.

"Who does?" inquired Joe, while the man who made the crack proceeded to

make his escape, at the sound of the familiar voice.

There in the window was something in the line of a funny monstrosity. It was a fish, sure enough, but no one in the party could tell what kind of a fish it was. "It was like the 'big fish' that Donald Meek used to tell us 'swallyed' up Jonah. It was about 10 inches long from the tip of its little flat nose to its tail and it was some three times that size around. It was as round as a ball and some four times bigger than a bass ball. It had the cutest little mouth imaginable with four teeth, two uppers and two lowers. Then it had two big brown eyes that looked almost human. It had two little ears and two fins, but it was so different from anything in the fish line that has ever been seen around these parts that some of the crowd were suspicious that it was a plaster-paris creation slickly painted. It rested on a huge platter in Mr. Gonzales' store window where it gazed with a most pathetic expression on its tiny face at the crowd that observed it.

"What I felt kind of a thing is that?" was Joe's first remark as he gave it one of those "Mutt" dotted line glances.

"You'll have to ask Gonzales about that," remarked Mike Markham.

Harry was called out and when he saw his hated rival in the bunch he smiled a smile of intense satisfaction. "That," remarked Harry rubbing his chin and talking slowly, "is what is known as a 'puff-fish.' I caught it at an early hour this morning in Hale's brook. Having tired of catching such common fish as lake trout, which anybody can catch and display in his window, I decided to go out and get a fish that amateur fishermen cannot produce."

to us when your telling about it," said Joe.

While the discussion was on, a Sun reporter arrived on the scene and he immediately inquired what kind of a fish it was.

"Gonzales says it's a puff-fish," said Flynn, "and he's all puffed up over it."

"That's just what it is, no joke," said Mr. Gonzales, "and some day I'm going to catch another and give it to Joe. He's all right at catching perch and horn-pont and lake trout, but I get him when it comes to rare fish."

Mr. Gonzales wouldn't give any further information regarding the fish and as the reporter went away Joe whispered: "That ain't a real fish. If you write anything in the paper the whole

town will give you the laugh. The only man in Gorham street who ever gets any fish worth looking at runs a store across the street. He's the father of young Joe Flynn."

But it is a fish nevertheless and if you're up that way take a look at it. Mr. Gonzales calls it a "puff-fish" but the dictionary which also contains a picture of it, a true likeness of the wonder in Harry's window describes it as a "Puffer," or in Latin the "Spherooides maculatus," whatever that is, a kind of plectognath fish (another fine word) peculiar to the Atlantic coast, a swell-fish, or globe fish. It is certainly the sweetest fish that has visited Gorham street in many a day.

## If Mothers Only Knew

## Charged With Padding Bills Against City of Lawrence

SALEM, June 8.—The Lawrence graft cases came before the superior criminal court here today when four men were placed on trial for alleged conspiracy to defraud the city of Lawrence by means of padding bills. As soon as court opened Attorney James H. Vahey of Watertown, of counsel for Holland, moved that the indictments be quashed on the ground that they did not state that the various counts covered the same alleged offense. The argument on this motion occupied the greater part of the forenoon.

After prolonged arguments between counsel, Judge Bell advised District Attorney Atwill to withdraw the last six counts in the indictments. This was done and the trial proceeded on the first eight counts in the indictment. He declared that the

## Atwood Coming In Fly- ing Machine

An aviator, one Harry N. Atwood, a Roxbury boy and a genuine high flyer, was to have landed in Lowell this afternoon, just to get a bite to eat and a little gasoline for his new Burgess-Wright aeroplane, in which he is in the habit of flying to keep dinner engagements.

Harry is a Tech graduate and they do tell that he is a new star in aviation. He flew from Atlantic to Marblehead yesterday to keep a dinner engagement with—well, that's none of our business. These little spins in the air he calls joy rides and should you mention danger to him he would say: "Hunk, hunk," just to remind you of that inferior article they call the automobile.

Today he said he was going to fly around Marblehead, then to Swampscott, then to Lynn, up the Saugus river to Wakefield, to Reading, to Wilmington, to Billerica and to Lowell. He said he would descend in this city for some gas and some gasoline. Then he said it he felt like flying he would strike out in any old direction that might take his fancy. Harry did not arrive in Lowell, however, not up to the time of going to press, at least, but there is no doubt that should he arrive he would be warmly welcomed, for Lowell's latch key is out even to the things that fly. If he comes he will be accompanied by Charles K. Hamilton.

# LEASSED FOR 10,000 YEARS

NEW YORK, June 8.—A reminder of the days when land was sold for unpaid taxes in old Queens county, the bidder paying the taxes and taking a tax lease on the land for a stipulated term of years, came up before Judge Humphreys in the Queens county court in Long Island City yesterday when the court designated Attorney L. J. Harvey a referee to determine the value of a tax lease running for 10,000 years which is held by Morris Fossick of Jamaica.

The property against which this lease stands consists of eight lots in Jamaica. It was formerly owned by John Howarth, who died intestate in 1890. Jacob Hess, one of the heirs, brought suit against Alfred J. Howarth, John T. Howarth and J. Edgar Howarth for a partition of the property and the sale was set for yesterday when the attorneys representing the defendants obtained a restraining order from Judge Humphreys.

# \$100 FINE IMPOSED

## For First Violation of Bar and Bottle Law

Eugene A. Shea, who conducts a many points of view. In the first liquor saloon at 509 Broadway and his bartender, Michael Miskell, were arrested before Judge Hadley in police court this morning on complaints charging them with the illegal sale of liquor. This case, although there were two complaints, was the first of the alleged violations of the Bar and Bottle law. Mr. Shea was granted a first class license—that is to sell liquors to be drunk on the premises—about a month ago by the board of police, but according to the testimony offered and the finding of the court the law was violated inasmuch as Mr. Miskell sold one-half pint of whiskey to Charles A. Wallace, one of the members of the police department. The case was an interesting one from the first witness called by the gov-

# REDEMPTION FUND

## Said to Have Been Plundered by Officers of Redeemable Co.

BOSTON, June 8.—Further evidence to show that the redemption fund of the Redeemable Investment Co. was plundered by officers of the company was introduced by the government today at the continuation of the trial of the Rev. Norman Plass, Charles Brooks and John Traphagen, three officers of the company, on charges of using the mails in a scheme to defraud. The evidence was taken from the books of the company by William Hingston of Boston, a public accountant. Up to March, 1910, when Brooks got \$10,000 from the redemption fund, witnesses testified that the total sale of shares of redeemable stock amounted to \$70,000, and that a balance of \$14,457 remained to the credit of the redemption fund in the National Shawmut bank. The company had previously redeemed, he said, \$2510 of its stock. There was no evidence in the books, witnesses said, to show that 25 per cent of the proceeds of the sale of 1904 shares of stock to Brooks had ever been deposited in the redemption fund, as the charter required. The charter also required the sale of all redeemed stock before any stock should be taken from the treasury. Witnesses testified that while \$12,156 worth of redeemed stock remained unsold \$104 of treasury stock was sold to James McLean on March 30 and an equal amount to Sarah E. Carney on April 1, as well as \$500 worth to M. Florence Murray in April. An erasure appeared on the books, witnesses said, under date of April 2. The entry purported to show a sale of \$600 worth of redeemable stock to E. C. Wales. Witnesses testified that the microscopically disclosed April 1 as the date of the original entry in that space, and the name of Brooks as the person who got the stock. The stock book under date of April 11, showed that Brooks had received \$600 worth of stock on certificate 122. Witnesses said there was no evidence in the cash book that cash had ever been paid for this stock. District Attorney French introduced a check dated April 11, 1910, drawn on the National Shawmut bank, where the redemption fund was kept, to the order of C. H. Brooks. The check was signed by Plass as trustee of the redemption fund. The journal bore an entry that cer-

### LEFT TO CHARITY

Mr. Soden Favored Grandfather's Friends

BOSTON, June 8.—The will of Arthur J. C. Soden, who lived at 65 Beacon street, recognizes the fact that the money which he had made by his grandfather and for this reason he leaves it to the latter's descendants.

"In making this will I have somewhat considered the needs of these named," he wrote. "As I inherited nothing from my father's estate I have not remembered the few distant relatives on his side. As I did not make my property myself, I have given most of it back to the descendants of Thomas Capen, my grandfather, who did make it. I direct that no person who shall contest this, my will, shall receive anything under it."

He expresses a further desire that the apostles' creed be read at his funeral services in St. Paul's Episcopal church. The principal bequest, that of \$10,000, is left to the trustees of donations to

Protestant Episcopal church in Massachusetts to be spent for the relief of clergymen and their families, or of small parishes in need.

The widow of the Rev. Charles H. Learoyd, late of Wakefield, he desires to have preference in the benefits from this trust fund.

The public bequests in the will are as follows: One thousand each to domestic and foreign missionary societies of the Episcopal church in the United States for domestic work; Church Home for Orphans and Destitute Children, St. Luke's Home for Convalescents, Boston; Industrial School for Crippled and Deformed Children, as a thank offering for partial recovery from severe illness. Roosevelt yesterday whether he would be a candidate for president in 1912. Colonel Roosevelt at once replied that he emphatically would not; that he should regard it as a calamity if he were nominated and he expected and demanded that every friend and supporter of his would do everything in his power to prevent any movement looking toward his, the colonel's nomination.

## The Forward Trucks of an Electric Car Passed Over Them

Passengers Helped Railroad Men Jack Up Front Part of the Car—Youngsters When Set Free Picked Themselves Up and Ran Home

EVERETT, June 8.—A crowd of Little Elsie, Abraham and Charles Brans, aged 8, 6 and 7 years respectively, left their homes this afternoon for school. While crossing Main street they emerged from behind a team directly in the path of a car. Elsie was whirled sideways in the street but picked herself up practically uninjured. Her brothers, however, were knocked down and the forward trucks passed over them. Passengers rushed from the car and passersby helped the railroad men jack up the front part of the car.

After ten minutes of work the forward truck was raised and the boys were pulled from under the car. The boys looked out in a startled manner for a moment and then raced homeward.

Commissioner Crosey then dismissed him. Commissioner Waldo said at the hearing that as McGrath had been acquitted in court he did not think he should be punished further.

Lieut. Lake was dismissed by Crosey for being found asleep in the Harbor A station house and for making entries in the blotter ahead of time. Commissioner Waldo said Lake had a good record and let him off with a reprimand.

## BIG CITIES WANT COMMISSION CHARTERS

The city of Pittsburg, with a population well over half a million, has entered the list of cities that have adopted the commission form of government.

For some time past it has been contended that only small cities had any use for the commission form of municipal government, but such success has attended the administration of this new form even with cities of medium size that several big cities are now thinking of adopting it. Pittsburg will have a single chamber or council of nine members elected at large, each with a salary of \$6300. By the change sixty-seven unpaid officials are legislated out of office.

The city of Scranton, Pa., has also adopted the same form of government, so that the idea is spreading rapidly and is not confined to small cities by any means.

The city of Buffalo, N. Y., wanted the commission form of charter, but was denied it by the New York legislature.

The city of Baltimore is considering the subject of charter revision and seems to favor a compromise between the councilmanic and commission form of government, with a single chamber of twelve members. The politicians are bitterly fighting the proposition in Baltimore for the reason that the change would lessen their opportunities for commanding favors and patronage. The same is true of the politicians in every city when any charter is proposed that might have the effect of lessening the number of elective officials in the governing body. The American cities are in a state of transition in regard to the system of government. It is an admitted fact that they have been the worst governed cities in any progressive country in the world, and the well meaning citizens are looking for the remedy. The great trouble has been that in the double chamber system with the mayor holding a veto power over their official acts, the business has been delayed and mismanaged for various reasons, political and otherwise. But the people were powerless to rectify the things that went wrong. Now, however, it is proposed to give the people absolute power not only in the choice of officials but in holding them accountable after election.

One great fault has been, that responsibility was centered nowhere. Now it is proposed to concentrate the power and the responsibility in a small body and then look to this body for results. This is the system adopted by every corporation that entrusts its business to one executive head and a board of directors. Business is business whether it be that of a manufacturing or a municipal corporation, and it has been found that the application of the same business principles will bring success in either case. That is why so many cities want the simpler form of government offered by the commission charter.

## INDICTMENT OF BOSTON CULTURE

It would seem that the Boston papers are endeavoring to reflect in their columns the literary culture of Boston. The Boston Herald has an editorial writer who devotes considerable time and space to pure English. Judging from his productions we might suppose that he had been a professor of language in some college. But the Herald is not much ahead of some of the other papers in this respect. The Globe has E. F. Burns, a poet of ability, as one of its editors, and while he does not write of the excellencies of either prose or poetry he produces many fine examples of both for the columns of his paper. The Traveler has taken up the suggestion and goes the Herald one better by deploring the lack of poetic appreciation among the reading public and the alleged fact that "Divine Poesy" has fallen on evil days.

Hear ye, O, Bostonese, this arraignment of your lack of literary taste or poetic conception from the Traveler:

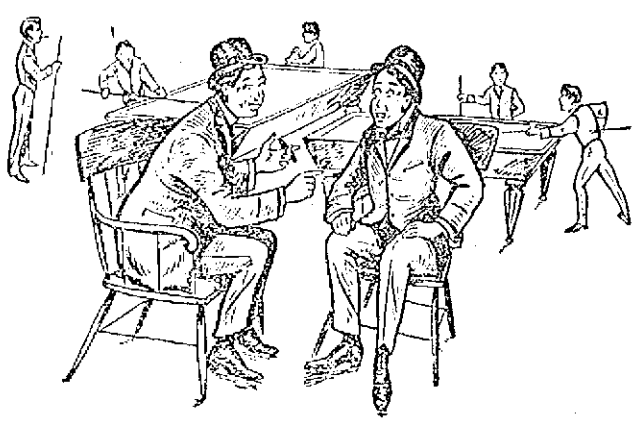

"But most intelligent people, business and professional men, school teachers, and college graduates seem to have little perception of the difference between divine verse and mere doggerel and prefer a cheap sentimental song or a clattering limerick to a lyric masterpiece of Homer, Virgil, Keats, Burns or Poe. And as for real comprehension of such kinds of poetry as Homer, Virgil, Dante and Goethe, one might seek in vain to find it among a thousand bachelors of art."

O ye immortal gods, has it come to this that the press of Boston can be quoted as deprecating the lack of poetic appreciation not to speak of the dearth of good poetry in Boston, aye cultured Boston. Yet not alone the common, everyday people but professional men, teachers and college graduates all, are here convicted of delving in ribald doggerel and clattering limericks while wholly blind or indifferent to the effusions that bear the stamp of the divine afflatus.

This is really a hard knock for poor old Boston, for has it not been said, and by no less a poet than Lowell, that "Over all life broods Poesy like the calm blue sky with its motherly rebuking face. She is the great reformer, and where the love of her is strong and healthy wickedness and wrong cannot long prevail?"

In this light then, we are led to infer that not only is Boston devoid of true poetic perception but incapable of casting off the baser things that lead to wickedness and wrong. Was it this tendency that led her people recently to shout for the voluptuous Bacchante rather than for a shrine to the Muses or a statue of some young poet mounting his Pegasus to climb the heights of Parnassus.

This is the interpretation of the Traveler's indictment against Boston, the boasted home of American culture and refinement. But the Traveler blames our school methods, hinting that this lack of poetic appreciation is the result of misdirected teaching that fails to reveal the beauty and grandeur of stately verse to the children, leaving them without the guidance by which they may ever after eschew the crude and vulgar and revel in the art of the poet when he paints the beauties of Nature, or when in imaginary flights he mounts above the earth to penetrate the ethereal blue, conjuring celestial visions of unseen glory and lifting the souls of men above the sordid things of earth so that they will give their devotion only to that which is beautiful or sublime, ideal, pure and noble, superlatively good and true.

AT THE CLUB

"I say, George, have you seen Peter MacKenzie of late?"  
"No, I haven't, Jerry. Why, anything up?"  
"Well, nothing in particular, only he is telling a pretty good story about two famous fishermen."  
"I wish I could see him, but can't you tell it to me?"  
"I will tell you what I know of it. This is the way Peter told it to me. Homer L. P. from city hall and P. W. Jr. of 'La Croix Rouge' drug store planned a little fishing excursion to Gumpus pond the other day. P. W. planned to get his fishing tackle and other paraphernalia ready for the trip, while Homer L. P. went over for a time later with a high spirited horse and a dandy piano box buggy. The horse was tied to a post and when P. W. came out all ready for the famous fishing trip, the pair jumped into the wagon, and Homer L. P. taking hold of the reins commanded the animal to go. The latter refused to budge at the start, but could not go. What's the matter with the dark horse?" shouted the driver. "Is he getting balky?"  
Then he took the whip and lashed the animal, but again the beast refused to move a step. Just then Peter MacKenzie came along and getting a square look at the driver and the horse, asked the former, "Do you want to carry the post along with you?"  
"What did he mean by that?"  
"Well, he meant that the horse was tied to the post, and as long as it stayed tied, it would refuse, or, in other words, would not be able to pull the load to Gumpus pond. The horse was then untied and the trip to the pond was made without any other interruption. Gumpus pond the other day. P. W. After a day of it on the water the two went home to get his fishing tackle. Fishermen loaded the carriage with fish, and Homer L. P. hitched the horse, or trip, while Homer L. P. went over for a time later with a high spirited horse and a dandy piano box buggy. The horse was tied to a post and when P. W. came out all ready for the famous fishing trip, the pair jumped into the wagon, and Homer L. P. taking hold of the reins commanded the animal to go. The latter refused to budge at the start, but could not go. What's the matter with the dark horse?" shouted the driver. "Is he getting balky?"  
"If this is a straight story, George?"  
"Well, if you want to know more about it, ask Peter. He will be able to supply you with more information."

## AERIAL JOY RIDE

### Airmen Made a Trip of 30 Miles

BOSTON, June 8.—Harry L. Atwood and Charles K. Hamilton, the aviators, went "joy-riding" on a flying machine yesterday afternoon, and incidentally made two of the most picturesque and sensational flights ever seen around Boston or anywhere else. They first took a trip from the aviation field at Atlantic down the South shore as far as Nantuxet, where they found that the oil was running low, so they turned about and made a quick run back to the aviation field.  
But that didn't just give them a hunger for more, so they put out several gallons of oil into the tank and went on again at 7:15 p. m., without any definite plan in view. They rose about 2000 feet, shot across Dorchester bay to South Boston and were about to fly to the Common when they changed their minds, turned to the north, across the harbor, over Boston or anywhere else. They first took a trip from the aviation field at Atlantic down the South shore as far as Nantuxet, where they found that the oil was running low, so they turned about and made a quick run back to the aviation field.

of a great flight—such a flight as no aviator at the big Harvard-Boston aviation meet last autumn dared to undertake. For these two daring aviators flew over the harbor, over cities and towns and did some stunts on the way in a 20-mile wind that was puffy and nasty at times, which caused people who saw them to hold their breaths.  
Immense crowds saw them and every automobile that could follow the aviators in their machine down over the Lynde boulevard and kept after them until they landed. About every body in Swampscott rushed to the high places and to Swampscott hill, when the aviators circled over that town and Marblehead, and when they landed a large part of the population of Swampscott flocked to the Tedesco grounds to see the aviators and their flying machine.  
The two aviators were at once taken into the clubhouse, given refreshments and became the guests of the members for the night.

## MERRIMACK SQUARE THEATRE

A reception to the patrons of the Merrimack Sq. Theatre will be held by Mortimer Snow and Miss Lillian Anderson at the conclusion of the performance this afternoon. In view of the fact that Mr. Snow and Miss Anderson are to finish up their engagement in Lowell this week, no doubt a large number of friends and admirers will be on hand to greet the pair, on their departure.

Clarence Wilbur, the Lowell boy, continues to amuse the patrons of this popular playhouse. Wilbur has a series of songs and stories that he handles in a very clever manner and keeps his audience in a merry mood from the time he appears until he bows himself off the stage. Prof. Dodd and his talking dog give a most amusing sketch and Miss Grace LaVelle is a singer of merit. The motion pictures are new today and again of the highest standard.  
For next week the star attraction will be "The Summer Girls," seven of them, in the latest and best song hits. The seven pieces of this act is exceptionally good. Baseball results nightly.—Adv.

## THEATRE VOYONS

Today the Theatre Voyons will commence the showing of "A Sane Fourth of July," a motion picture of most timely interest and one that should both interest and instruct every citizen of Lowell. This picture tells an interesting story as well as pointing out the dangers of an old time celebration and was prepared under the direction of the Sage Foundation, department of Child Hygiene. "The Smile of a Child," a Biograph dramatic subject, will win plenty of applause both for the novelty of its story and for the cleverness of its actors.—Adv.

game, speaks at two clubs and two or more churches, he will come to Manhattan to attend the dinner of the National Cottonseed Crushers association tonight. Brooklyn is noted for the number and size of its Sunday schools and it was expected that 150,000 children would participate in today's celebration. The president was scheduled to review the parade from a stand in Prospect park between 3:30 and 4 p. m. He was due to arrive over the Pennsylvania railroad at 1:34 p. m. Mayor Gaynor and the borough officers arranged to meet him at the Brooklyn end of the Williamsburg bridge and escort him first to the Hanover club to meet the officers and pastors of the Sunday school union. At the Union league club next the president was to lunch with Governor Dix and the other distinguished guests. Then he planned to go to the Tompkins Avenue Congregational church to address the children gathered for exercises preceding the parade. ### MANY MEETINGS

#### UNDER AUSPICES OF THE CHARITY CONFERENCE

BOSTON, June 8.—An extensive and varied program was carried out by the National Conference of Charities and Corrections during the morning hours today. Following the general session in Ford hall, which was taken up with the reports of corresponding secretaries of the states and territories represented, a wide range of subjects dealing with charity and corrections was discussed in the public halls around Boston.

Adequate relief for families and neighborhoods, the care of destitute and neglected children, housing, heat and recreation, drunkenness and mental defects of law-breakers, offered opportunity for the visiting delegates to get in touch with the most advanced theories of special work in their chosen field.

At the Twentieth Century club Dr. Harlow Brooks and Dr. T. F. Williams of New York discussed the subject of Drunkenness in regard to the effect of alcohol on the organs and functions of the body.

Miss Jane Addams of Chicago and Joseph Lee considered the problems of housing, heat and recreation in Ford hall, and delegates interested in the mental defects of delinquents listened to addresses by Dr. William Healy of Chicago, Dr. Schupp of New York, Prof. Maurice Marmalee of the university of Missouri and many other noted experts in penology.

Other speakers at the morning session meetings were: Frederick W. Buffalo, who considered families and neighborhoods and Dr. J. R. Brackett of Boston.

### COL. ROOSEVELT

#### LEFT FOR NEW YORK AT 5 O'CLOCK THIS MORNING

WHITE RIVER JUNCTION, Vt., June 6.—Colonel Theodore Roosevelt, who was the principal speaker at the dinner of the Y. M. C. A. here last night, left for New York at 5 a. m. today. Mr. Roosevelt occupied a special car attached to the regular south-bound train and is due to arrive at New York about noon.

### LOST MEMORY

Recovered by Man After Three Days

LYNN, June 8.—After suffering from a lapse of memory for more than three days, Abe Fegelman, a young man, living at 31 Grove street, Boston, became repossessed of his lost faculty in the Lynn hospital Tuesday and revealed his identity to the doctors.

His was one of the strangest cases in the history of the hospital, and the ailment from which he was suffering, which caused temporary loss of his memory, baffled diagnosis. The hospital doctors admit that they are at a loss to account for his strange condition, but yesterday, when the young man was permitted to leave the hospital, he was apparently in perfect health.

Late last Saturday night Fegelman was found by Patrolman Litch wandering aimlessly about in Houghton square. He told the officer that he did not know his name. Not knowing what to do, Patrolman Litch called the station and sent him to the Sutton street station.

Sunday morning he was sent to the hospital and he remained there until Tuesday forenoon, when he suddenly regained his memory and asked where he was. He told the doctors all about himself and added that he remembered nothing about his actions since he left the home of A. Platzman at 31 Grove street, Boston, Saturday.

He could not tell how he happened to come to Lynn, and he expressed some surprise when he was told that he was in a hospital in this city.

### SKULL FRACTURED

#### MAN INJURED IN AN AUTO ACCIDENT

NEWTON, June 8.—One man received a fracture of the skull, another had a narrow escape from serious injury and the automobile in which they were riding was demolished when the car collided with a loaded coal wagon on the Commonwealth avenue boulevard near Market road in the Chestnut Hill district of this city at 7 last night.

Frank J. Quinn of Rutland, Vt., was thrown into the highway with such force that his skull was fractured. He was rushed to the Newton hospital, where it was said that he will probably recover, although his condition is serious.

His brother, John Quinn, manager of the hotel Essex, Boston, who owned the automobile, and whom he was visiting, was thrown with great force onto the hard pavement roadway, but escaped with only a severe shaking up and comparatively minor cuts and bruises.

PENDLETON, Ore., June 8.—Assurance that woolgrowers have nothing to fear from the proposed downward move of the tariff was received yesterday by D. F. Smith, secretary of the Oregon Woolgrowers' association, in a letter from W. S. McClure, secretary of the National association, who has been in Washington. "I have gone over the situation in Washington very carefully," the letter says, "and feel safe in assuring the woolgrowers that there will be no legislation affecting the tariff passed at the present session of congress."

# HIDDEN GOLD

## Found by Treasure Seekers Off Honduran Coast

SAN DIEGO, Cal., June 8.—A message received here from a party of treasure seekers aboard the steamer Eureka, says their expedition to recover an immense cache of gold hidden by the crew of a Chilean cruiser off the Honduran coast many years ago has been successful. The treasure has been variously estimated at from \$15,000,000 to \$65,000,000, according to reports circulated here. The steamer is now headed for this port.

The Eureka is in command of Capt. Burlingame and was taken on a 30 day charter by a party of San Francisco people about two weeks ago.

The expedition is said to have been financed by Henry Krelling, a well known citizen of San Francisco. The man showing the location of the buried treasure, is said to have been in the possession of a former resident of Honduras who succeeded in interesting Krelling in his story of the buried gold. The result was the chartering of the Eureka.

The fact that most of the South American republics will not allow the exportation of gold made it necessary to guard the plans of the expedition. The message received from Salina Cruz yesterday read:

"Expedition a success in every way. Reach San Diego for oil next week."

**THE EUREKA WATCHED**  
WASHINGTON, June 8.—The movements of the schooner Eureka have given much concern to the state and navy departments for a month past. The Nicaraguan minister here learned through private sources that the vessel had cleared from San Francisco about May 13 for the bay of Fonseca on the west coast of Nicaragua, supposedly with arms and ammunition.

The gunboat Yorktown was dispatched in haste from Panama to San Juan Del Sur and afterward to Amagua to find the Eureka and search her for contraband ammunition. Two days ago she reported to the navy department that no arms had been found on the Eureka, which is a steam schooner. No attempt was made to detain the Eureka, although the Nicaraguan minister suspected that she had discharged her arms on some of the coast islands or trans-shipped them to some coasting vessel.

**HEAVY VERDICTS**  
WERE RETURNED AGAINST SEVERAL CORPORATIONS

Verdicts aggregating \$17,000 were returned against three corporations by juries in the superior court yesterday in accident cases.

Rebecca Glass, in her suit for damages against the Hazen Confectionery company, was awarded \$8000 for the loss of her left hand while operating a candy cutting machine.

Charles A. Crawford, as executor of the estate of Lily V. Crawford, recovered a verdict of \$3600 against the Boston Elevated Railway company for injuries received by Mrs. Crawford when the fuse of a car blew out.

John E. Welsh, who was in a collision of trains at the South station in November, 1908, was awarded \$6000 in his action against the New York, New Haven and Hartford railroad.

## NEGRESS BLAMED FRUIT GROWERS MISS JULIA WALL

Is Accused of \$50,000 Will Demand \$100,000 A Graniteville Woman Elected to Office

NEW YORK, June 8.—The police assert that as many as 40 apartments and houses on the fashionable upper West Side have been robbed of \$50,000 worth of fine clothes during the last few months and that Annie Carter, a young negress, who was arrested last night while pawing a sealskin coat, may be confronted by all the complainants when she is given a hearing.

Detectives investigating found to their surprise that in almost every case the thief had seemingly avoided stealing jewelry which might easily have been taken. In one case \$15,000 worth of jewels lying on the dresser in a room where jewels had been stolen were left untouched.

**BADLY BEATEN**  
Holyoke Striker Victim of Assault

HOLYOKE, June 8.—Joseph Sutton, aged 33, one of the carpenters now out on a strike, staggered into his home at 1.15 yesterday morning half unconscious from a terrible beating administered by some one as yet unknown. He had a compound fracture of the jaw, a broken leg, a long gash on the head that took six stitches to close, and six teeth were broken. The condition of his jaw prevented Sutton from giving any clear account of how it happened. He attended a meeting of strikers last evening and at 11.30 was in the hall with 20 or 25 others. He was next seen at his home by his wife. It is believed that he wandered around dazed after the assault and that he was assisted home by the crew of some late trolley car. An investigation started by the police has so far failed to establish a clue to his assailants.

## AN OPIUM RAID

NEW YORK, June 8.—In seizing more than \$1000 worth of contraband opium yesterday, three custom inspectors and three detectives battled with 14 members of the Chinese crew of the steamer Roserie at a Brooklyn wharf and finally arrested three Orientals. On secret information the customs men searched the Roserie, which was getting ready to sail yesterday on its regular trip to Shanghai, and found 19 cans of opium hidden in the bunkers of members of the crew. The captain refused to tell what Chinamen occupied those bunks and when the officers started to take the drug the 14 members of the crew objected. The customs men were driven to the main deck and from there to the dock by the Chinamen, who were armed with long knives.

LOS ANGELES, Cal., June 8.—A. E. Coons, agent for a fruit express, was notified yesterday that American growers of fruits and vegetables in Mexico would ask the state department at Washington to a demand for \$100,000 damages from the Mexican government. The growers assert that the wrecking of the railroad bridges by the insurrecto forces has caused the loss of cantaloupe and tomato crops in two states of Mexico.

**LOSS IS \$15,000**  
Factory Was Burned at Brunswick, Me.

BRUNSWICK, Me., June 8.—The two-story factory of the Portland Lumber Co. was destroyed by fire last night. The blaze was discovered at 10.30 by Carroll York in the shanty tower, which is about 25 feet from the main building, and alarm was given from box 61, but when the firemen arrived the flames had spread to the factory, which was burned to the ground. The fire was one of the hardest the firemen have handled in years and so great was the heat that the men were scorched and at times driven back so that they were unable to use the hose effectively. The Western Union and Maine Central telegraph lines were crippled by the fire, which burned some of the poles, and the tool house of the Maine Central Railroad caught, but the blaze was extinguished before it made any progress. Sparks were carried into

the woods adjoining the railroad tracks, but a force of firemen put out the fire. The pullman trains on the Maine Central were delayed a short time by the fire.

## Fraudulent Hair Remedies

In the *Cosmopolitan Magazine* for February, 1909, there is a long article on the Hair and Scalp by Woods Hutchinson, M.D., a writer of wide renown, and in it he says:

"The strongest and most powerful curative element of scalp tonics and hair restorers is their smell, and the next powerful is their color."

"Most of them are frauds, pure and simple, and produce no effect whatever except upon the imagination and the nostrils of the users."

"The most common constituent of them all is alcohol, and the next common probably ammonia or some aromatic oil or extract which has the double advantage of a powerful odor and of producing a mild sense of warmth and local irritation."

"All of this class are mild irritants to the skin and produce a light temporary reddening by an increase in the amount of blood circulating through the scalp; but this has about as much effect on the hair-bulbs as the beams of the harvest moon have upon growing cabbages."

The only sure way to benefit the hair and scalp is to keep them clean and free from dust and disease germs.

For this purpose Birt's Head Wash, the new scientific shampoo, is most highly recommended, because it is made of Refined Creamy Soap, White of Eggs, Cochin Cocoanut Oil, Glycerin and Salicylic Acid. Any doctor will tell you there are no better things known than these for cleaning the hair and scalp. In hygienic tubes, 25c.

## Annual Exercises and Prize Drill at Mitchell School

The annual prize drill and graduating exercises of the Mitchell Military School in Billerica attracted many people to the place yesterday. In the morning there were a prize drill and field events, after which lunch was served, and in the afternoon exercises were held in the gymnasium and later the closing exercises were held in the school hall.

There was a large attendance, but owing to the inclement weather it was not so great as in other years, but when the dark clouds moved away and the rain stopped the sun came out and the afternoon proved to be ideal.

The prizes for the field events are presented annually by Mr. H. T. Mason, a former student of the school.

The prizes were awarded by Alexander H. Mitchell at the conclusion of the afternoon exercises to the winners. The events and the winners follow:

Aluminum cup for scholarship, won by Yale Rice of Petersky, Mich.; Sutton medal for general military excellence, won by First Lieut. Wm. W. Kimball of Hingham, Mass. The winner of this prize is to be captain of the company next year. Head Boy medal won by Richard L. Cooley of West Newton, Mass.; Master Birthhold Kitten of Hartford, Conn., second choice.

Declamation prize won by Capt. J. Browning Smith of Pawtucket with honorable mention being made of Richard Fellows, William Wirt Rice and Horace Stevens. Manual of arms drill won by Yale Rice.

In athletics the first cup was awarded to William Savage of Somerville; second cup to William Kendall of Hingham; third to Richard Sherburne of Lexington. Juniors' prize won by Clifford Arnold of Brookline, Mass. New prizes were awarded this year by the athletic association to the captains of the baseball, football and basketball teams.

The judges during the exercises were Miss Mabel Hill of Lowell, Mrs. Corwin and Rev. J. Harold Dale of Billerica. Capt. James Greig, Company K, Sixth regiment, was the judge in chief of the military exercises.

The program was as follows:

Selections, The Mandolin Club.  
Songs, The School.  
The Finish of Patsy Barnes, Dunbar.  
Herbert Richard Hastings.  
The Arrangement of Cadence, Cicero.

**FOUR INJURED**

Electric Cars Met on Curve

PORTLAND, Me., June 8.—Four persons were injured in a collision between two electric cars on the Gorham and South Windham division of the Portland railway last night.

The injured are:  
J. P. MacPherson of Portland, leg hurt.  
Frank Depamore of Portland, wrist cut.

Mrs. Fred Bodge of South Windham, shoulder wrenched.  
Mrs. Feeney of Gorham, leg sprained.

MacPherson suffered the most serious injury and was at once brought to this city. The other victims were taken to nearby houses and physicians called.

The cars met on a curve at what is known as the canal turnout, and as the rails were slippery, the instant application of the brakes did no good, except to lessen somewhat the force of the collision.

Both cars were crowded with passengers, and it was reported last night that many other people suffered minor injuries. The cause of the accident is to be investigated.

**HAMILTON MILL**

Out of Town Builder Gets Contract

The Hamilton Mfg. Co. yesterday awarded the contract for its new mill to J. J. Prindiville, of South Framingham.

The building will be of brick, 268 feet long by 135 feet wide, four stories high. It will be built along the bank of the canal within the Hamilton yard, and will replace two old mill buildings. Later on, an addition may be built, making the building, with the extension, 300 feet in length, and the largest mill building in the city. Construction will be started at once.

Local contractors are much disappointed because the job goes out of town and some of them claim that the

**MATRIMONIAL**

Mr. Frank Bowen, superintendent of the Appleton Company, and Miss Mary Ellen French were united in marriage last night, the ceremony being performed at 6 o'clock at the home of the bride's brother, Mr. Albert French, 213 Parkview avenue, by the Rev. S. W. Cummings, pastor of the First Baptist church, who used the double ring service. The wedding took place in the music room, which was profusely decorated with mountain laurel, the bride's party standing under an arch and left music outside of laurel.

French, the bride's brother, played the wedding march, and Mr. Solomon W. Stevens played during the reception that followed.

The bride was attended by her sister, Mrs. Albert J. Trull of North Tewksbury, as matron of honor, and by four flower girls and ribbon bearers. Miss Donna Bowen, a grandniece of the bridegroom, Miss Alice Gaudin, Misses Eva M. and Mildred E. French, the bridegroom's nieces, attended the bride. The bridegroom was attended by the following men were ushers:

Mr. Irving F. French of Tewksbury; Mr. Herbert L. French of Boston; Mr. Clarence A. Bowen of Lowell, and Mr. Herbert B. Bennett of Norwich, Conn.

The bride's gown was of white crepe de chine over silk, trimmed with embroidery and real lace; and her tulle veil, in coronation style, was caught with lilies of the valley, the same flowers composing the shower bouquet that she carried. The matron of honor wore white mesaline, and carried pink roses, and the flower girls carried pink roses in pink and white, carrying pinks and sweet peas.

A novel and original idea in the decorations, were the initials "B" and "F", illuminated, among the masses of laurel forming the background of the ceremony. As soon as the ceremony was over, the words that made the contracting parties man and wife, these initials disappeared, and in their place appeared another and larger illuminated initial "B."

At the reception following the ceremony, Mr. and Mrs. Albert F. French and Mr. and Mrs. Albert J. Trull were in line with the bride and bridegroom. Mrs. French wore a gown of white marquisette, with coral silk trimmings. About 200 guests were present.

After September 1, Mr. and Mrs. Bowen will be at home to their friends at 45 Gates street.

**FARNHAM—WRIGHT**

The marriage of Mr. Earl F. Farnham, a well known employee of the Tremont & Suffolk office, and Miss Elizabeth B. Wright was solemnized last evening at the home of the bridegroom, 23 South Walker street. The ceremony was attended by many friends of the couple.

A large arbor of mountain laurel was erected in the parlor and beneath this the wedding party stood as the double ring service was performed by Rev. George F. Kemgott, pastor of the First Trinitarian church, assisted by Rev. Sarah A. Dixon, pastor of the Tewksbury Centre Congregational church. The bride was prettily dressed in a hand embroidered, silk basile dress over white satin, and wore a veil, and carried white roses. The matron of honor, Mrs. Rosalind Cashin, wore white tulle over pink silk and carried pink roses. The best man was Mr. Albert Ludwig.

After the ceremony a reception was held, and a wedding supper was served. Mr. and Mrs. Farnham received many presents. They left for a honeymoon trip during the evening. They will make their home at 23 South Walker street.

**On Your Vacation**

Whether you are off for the mountains, the woods or the sea, there is one thing you will be thankful to have time and again if you put it in your outfit. This is a bottle of Tolleine. For sunburn, insect bites, poison cuts, burns, swollen or chafed feet, or in fact any of the ills the skin is subject to. Tolleine is almost miraculous in its effect. It has been described as a "perfect healer," and its long continued use in thousands of families throughout New England for the last 20 years is testimony to its remarkable efficacy. Tolleine may be purchased at practically any druggist's and may be used internally or externally with perfect safety as it contains absolutely no drugs or harmful ingredients of any description.

E. Alfred Hudson, brother of the bride. The bride was attired in white tulle over blue silk and carried pink carnations. The bridegroom wore blue silk and carried pink carnations. The reception was held at the home of the bride's grandmother, Mrs. E. T. Mackley, at 101 Pleasant street, to the immediate members of the family. The bride and bridegroom were the recipients of many beautiful presents.

# SHOT BY ACTRESS

## W. E. D. Stokes, New York Hotel Man, Seriously Injured

### Lillian Graham Admits That She Did the Shooting—She Says She Fired in Self Defence—Wounded Man Says That Women Demanded \$25,000 and Wanted Him to Sign a Statement

NEW YORK, June 8.—William E. D. Stokes, owner of the hotel Ansonia, is in the Roosevelt hospital with two bullet wounds in his right thigh and one just above the left ankle.

Lillian Graham, 22 years old, an actress, and Ethel Conrad, 18 years old, an illustrator and singer, are prisoners in the West 6th street police station, charged with having shot him in their apartment at the Ansonia, 225 West 18th street, at 5:30 o'clock yesterday afternoon.

Mr. Stokes had received a telephone message at the Ansonia at 5 o'clock asking him to visit the young women's apartment to talk with them regarding some letters in their possession.

He went at once and met the women in the parlor of a three-room suite which they have occupied for a fortnight.

**Stokes Thrice Wounded**

As to what happened immediately thereafter, Mr. Stokes has given one version to the police, while the girls have made statements which differ essentially.

Other occupants of the house, however, heard sounds of a quarrel soon after Mr. Stokes' arrival. These sounds were followed by five revolver shots, the sound of Mr. Stokes making his way to the hall and the screams of the young women that he was trying to shoot them.

In an adjoining apartment, occupied by Patrick Casey, the manager of a vaudeville booking agency, three Japanese, Rot Moto, Yoshii Murat, and George Johnson, were preparing a dinner, to which Mr. Casey had invited a company of friends.

At the reports of the revolver the Japanese ran into the hallway and found Mr. Stokes sitting on the top step of the stairs leading to the third floor, holding a revolver in his right hand. The screaming girls were standing with blanched faces at the door of their apartment.

**Two Women Arrested**

John Bloom, superintendent of the Varuna, heard the shots from the 10th floor and had reached the fourth before the Japanese had gathered their wits enough to do anything for the wounded millionaire.

Bloom picked him up in his arms, carried him to the first floor and there placed him in an automobile, in which he was taken to the Ansonia, several blocks away.

At the Ansonia a number of physicians were summoned and before Mr. Stokes had been taken from the car a mobile load of children with an automobile load of children who had been attending the orphan's day celebration at Coney Island, was notified of the shooting and arrested Miss Graham and Miss Conrad in their apartments, taking the three Japanese into custody at the same time as witnesses.

**Claim Self-Defence**

"The girls, when arraigned before Judge Hayes at the station house, were charged with felonious assault. Miss Graham had \$94 in her possession while her companion had \$17. The latter refused at first to give her name but later said she was Ethel Conrad.

"The first statement from any principal in the shooting was given by Miss Graham to a reporter. She declined to go into personal details, either about herself or about Miss Conrad. As to the shooting itself, however, she said:

"We were armed when Mr. Stokes came to the house because we live alone and we have to have revolvers to insure ourselves protection. He came to the house to get some letters I had. I refused to give them to him when he demanded them and he grasped me by the throat."

**Miss Graham Admitted Shooting**

"I was in danger of violence at his hands and I picked up my pistol from the mantel and shot at him as he came at me again. I don't know how often

I fired, but I think it was twice. As I was shooting he wrenched the pistol from my hands and shot at me.

"Then he backed away from me toward the door. He went out into the hall and dropped down by the door. We followed, screaming for help, and succeeded in getting to the elevator, but the boys paid no attention when we rang the bell.

"Mr. Stokes was still pointing the pistol at us and trying to shoot and we could only stand where we were until the three Japanese and the others came."

Miss Conrad would add nothing to this statement. She was in great distress, and seemed to be able to think of nothing but what her brother would say when he heard of her plight. She would not tell the police her brother's name or address, or give them any further information concerning herself than her name and age.

On the way to the hospital Mr. Stokes told Detective Devery that the girls had asked him to see them on business, and that when he arrived they had a long statement which they demanded that he sign. When he refused, he said, both of them opened fire on him.

**Stokes' Story of Shooting**

Later in the evening Terence J. McManus, Mr. Stokes' attorney, made this statement concerning the shooting:

"Mr. Stokes received a telephone message from Miss Conrad in which she told him to come to the 18th street house and get some letters Miss Graham had left for him. She told him to come as quickly as possible, as Miss Graham expected to leave town with her brother.

"Soon after 5 o'clock Mr. Stokes went to the house. Miss Conrad and Miss Graham were both in the sitting room of the apartment when Mr. Stokes rang. They opened the door together, and as he stepped into the room he heard the bolt of the door in the hall being shot into place.

"Miss Graham immediately drew a revolver and pointing to a pad on a desk at one side of the room, she said 'Give me \$25,000 and sign this agreement.'

"Mr. Stokes, of course, refused either to sign or to pay. Thereupon Miss Graham fired two shots in quick succession at him. Both of these shots struck him in the right leg, the wounds being less than an inch apart.

"Mr. Stokes closed in on Miss Graham at once and tried to wrench the weapon from her. In this struggle another shot was fired, the bullet cutting through Mr. Stokes' coat, close to the abdomen. The powder marks from this shot are to be seen on Mr. Stokes' right hand.

"But he succeeded in getting the revolver away. Miss Graham jumped to one side then and cried to her friend, Miss Conrad, 'Now's the chance to kill him.'

"Miss Conrad then opened fire, but Mr. Stokes succeeded in getting into the hallway. There, Mr. Stokes told me, he was met by three Japanese, who caught hold of him and assaulted him. To back that statement up Mr. Stokes has a black and blue mark extending over both eyes and there is a lump on the back of his head where something struck him."

**STOKES MAY RECOVER**

NEW YORK, June 8.—The condition of W. E. Stokes, the millionaire proprietor of the Hotel Ansonia and widely known horseman, who was shot by two women in their apartment, was such this morning that his physicians say that he will likely recover. The young women, Lillian Graham, an actress, and Ethel Conrad, an illustrator, formally charged with the shooting, were taken to police headquarters this morning on the verge of collapse. The Japanese servants in the apartment house where Stokes was shot are held as witnesses.

Miss Graham and Miss Conrad will be arraigned in court later and held to await the result of Mr. Stokes' injuries. Anti-toxins were administered to Mr. Stokes today and a more complete examination to ascertain whether the two bullets still remain in the millionaire's ankle and thigh will be made.

Mr. Stokes' attorney says that his client went to the girls' apartment on receiving a message from Miss Conrad to obtain some letters. Stokes denied that he had ever written any letters and when he reached the apartment his counsel says the door was locked behind him and Miss Graham immediately drew a revolver and pointing to a pad on a desk at one side she said: "Give me \$25,000 and sign this agreement."

Stokes' lawyer, Terence J. McManus, says that Stokes refused, and that "thereupon Miss Graham fired two shots at him." Stokes got the revolver away from Miss Graham, who then, according to Mr. McManus called upon Miss Conrad to fire. Miss Conrad, Stokes' lawyer says, also fired and as the millionaire backed into the hallway three Japanese servants set upon him.

Miss Graham, in a statement, says that Stokes came to her apartment and demanded letters which he admitted were written by him. When told that she had no letters Miss Graham alleges that Stokes turned on her in a perfect fury and caught her by the throat and began to choke her.

Miss Graham then alleges that, fearing violence at his hands, she shot at him. The actress says that Stokes wrenched the pistol from her and shot at her. Miss Graham says nothing about the charge made by Stokes' counsel that Miss Conrad fired a shot.

Stokes says that he met Miss Graham and her sister, Mrs. John Singleton, of Los Angeles, Sunday. He knew Miss Conrad only slightly.

# Over-Worked Girls

**Read What This Girl Says:**

Appleton, Wis.—"I take pleasure in writing you an account of my sickness. I told a friend of mine how I felt and she said I had female trouble and advised me to use Lydia E. Pinkham's Vegetable Compound, as she had taken it herself for the same trouble with wonderful results. I had been sick for two years and overworked myself, and had such bad feelings every month that I could hardly walk for pain. I was very nervous and easily tired out and could not sleep nights. I had dizzy spells, and pimples came on my face. But I have taken your Vegetable Compound and I am entirely cured. I think it is the best medicine in existence."—Miss Cecilia M. Bauer, 1161 Lawrence St., Appleton, Wis.

**THIS GIRL SAYS IT IS WOMAN'S BEST FRIEND:**

Chicago, Ill.—"Your Compound cured all my troubles and I am feeling strong and happy and able to work now. Wherever I go I shall praise Lydia E. Pinkham's Vegetable Compound, as I think it is woman's best friend. I have told all my friends the good it has done me."—Miss Maggie Isbauer, 2418 So. Whipple Street, Chicago, Illinois.

Lorimer, Iowa.—"I had a heavy cold in the spring and got all run down and was irregular. I had no strength and had bearing down pains in my sides and back, and was very nervous and excitable. I took Lydia E. Pinkham's Vegetable Compound, and I am all right again, and stronger than before."—Miss L. E. Williams, Lorimer, Iowa.

Is it not reasonable to suppose that a medicine that did so much for these girls will benefit any other girl who is suffering with the same troubles?

Does it not seem the only sensible thing to give such a medicine at least a trial? You may be sure that it can do you no harm, and there is lots of proof that it will do you much good.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and has thousands of cures to its credit.

The testimonials which are constantly being published in the Pinkham advertisements are guaranteed to be absolutely genuine, honest, and given without reward in any way whatever.

and pass words of congratulation to both the Joes, young and old.

Harry added his time. He fished in several ponds but never succeeded in getting anything that would rob Joe of his laurels until yesterday, and now everybody is walking along the left side of Gorham street, going up, and it has suddenly grown from the 50 cents side to the dollar side.

Joe Flynn came down to Young Joe's store yesterday morning in his auto, thoroughly at peace with himself and the world, remarking that it was a good day for horn-pout. By chance he glanced across the street and there to his great surprise he saw Owen Donahue, Mike Markham, Charlie Marren, McConville, the barber, Henry Quilbach, Tommy McDermott, Jerry McGlinchey, Martin Colman, Tom McNiff of the No. 1 East Club, Phil Ginty, the slater, Donnelly and Bill Hazard, the light and dark tailors, Martin Crowe the collier, Sargent, Shea, Mike Donlin, Bill Terrell, Dan Lane and Dan Cogger, the cups, and a whole bunch of prominent Gorham street citizens congregated about and peering into the window of Harry Gonzales in open-mouthed wonder and excitement.

"Hamp!" exclaimed Joe. "I suppose Harry Young has sent him in a few pounds from Flushing pond and he's four-fishing with them."

Just then John Saunders, the grocer, beat it across the street in great haste, and soon was mixed up with the crowd.

"Be gorry," remarked Joe alighting from his auto, "if that guy is going to get in the game so is the firm of Flynn, and forthwith Joe crossed the street.

Being on the outskirts of the crowd he couldn't see very well and he asked: "What's the excitement?"

"It's Joe's like Joe Flynn," said one of the bunch who had not observed Joe's arrival.

"Who does?" inquired Joe, while the man who made the crack proceeded to make his escape, at the sound of the familiar voice.

There in the window was something in the line of a funny monstrosity. It was a fish, sure enough, but no one in the party could tell what kind of a fish it "was." It was like the "big fish" that Donald Meek used to tell us "swallowed" up Jonah. It was about 10 inches long from tip of its little E flat nose to its tail and it was some three times that size around. It was as round as a ball and some four times bigger than a bass ball. It had the cutest little mouth imaginable with four teeth, two uppers and two lowers. Then it had two big brown eyes that looked almost human. It had two little ears and two fins, but it was so different from anything in the fish line that has ever been seen around these parts that some of the crowd were suspicious that it was a plaster-parls creation slickly painted. It rested on a huge plaster in Mr. Gonzales' store window where it gazed with a most pathetic expression on its tiny face at the crowd that observed it.

"Vot 'ell kind of a thing is that?" was Joe's first remark as he gave it one of those "Mutt" dotted line glances.

"You'll have to ask Gonzales about that," remarked Mike Markham.

Harry was called out and when he saw his hated rival in the bunch he smiled a smile of intense satisfaction.

"That," remarked Harry rubbing his chin and talking slowly, "is what is known as a 'puff-fish.' I caught it at an early hour this morning in Hale's brook. Having tired of catching such common fish as lake trout, which anybody can catch and display in his window, I decided to go out and get a fish that amateur fishermen cannot produce."

"Wow! wow!" said the crowd.

"You caught that in Hale's brook, did you?" said Joe.

"I certainly did," remarked Harry, and I think I am the only man who ever caught that kind of a fish in Hale's Brook."

"You caught that fish in Hale's brook, NOT!" replied Joe. "No fish like that ever grew in fresh water. That's a salt water fish if the fish at all, and I have my doubts as to that."

"Well, perhaps I put salt in Hale's brook before I caught it," said Harry.

"Is salt you ought to hand around to us when your telling about it," said Joe.

While the discussion was on, a Sun reporter arrived on the scene and he immediately inquired what kind of a fish it was.

"Gonzales says it's a puff-fish," said Flynn, "and he's all puffed up over it."

"That's just what it is, no joke," said Mr. Gonzales, "and some day I'm going to catch another and give it to Joe. He's all right at catching perch and hornpout and lake trout, but I get him when it comes to puff fish."

Mr. Gonzales wouldn't give any further information regarding the fish and as the reporter went away Joe whispered: "That ain't a real fish. If you write anything in the paper the whole town will give you the laugh. The only man in Gorham street who ever gets any fish worth looking at runs a store across the street. He's the father of young Joe Flynn."

But it is a fish nevertheless and if you're up that way take a look at it. Mr. Gonzales calls it a "puff-fish" but the dictionary which also contains a picture of it, a true likeness of the wonder in Harry's window describes it as a "Puffer," or in Latin the "Spherooides maculatus," whatever that is, a kind of plectograph fish (another fine word peculiar to the Atlantic coast, a swell-fish, or globe fish. It is certainly the swiftest fish that has visited Gorham street in many a day.

When children are cross, irritable and peevish it does not signify that they have butte tempers; it shows that there is something wrong with the child which it is not able to explain, and which the mother—If She Only Knew—could easily and quickly cure. Mothers, study your child's symptoms of cross, peevish, nervous, grills the teeth, wets the bed, picks the nose, has variable appetite or bowels, suffers with wind-colic, or headache, is fretful and restless, has furred tongue or offensive breath, you may be sure that child is troubled with worms, which cause nearly all the ills of childhood.

Don't delay—disease comes suddenly—a few doses of the wonderful old-time remedy—

**DR. TRUE'S ELIXIR**
